#### 4. SPRINT CLARITY

##### 1. Overview

##### 1. Description

Sprint Clarity is a one-stop integrated business service designed to meet the communications needs of small to medium-sized business customers of outbound, toll free, and data, regardless of the number of business locations or access requirements. Only associated customer locations, as defined in [Definitions for Business Communications Services](#), are allowed to participate in the Sprint Clarity offering.

Sprint Clarity delivers a fully integrated line of business services, a total business solution to the small and medium business market. Sprint Clarity customers may choose from a variety of Standard and Targeted Calling Options to tailor Sprint Clarity to meet their unique requirements at each and every customer location. In addition, Sprint Clarity offers Custom Business Options (see Section 4.12) to leverage the simplicity of the Sprint Clarity structure by providing packaged solutions of unique features and functionality for specialized markets.

Sprint Clarity offers either non-term or term (via the Maximum Value Plan) discounts (See Sections 4.4.1 and 4.4.2) based upon aggregated usage (including Sprint Clarity FONCARD surcharges) from all Sprint Clarity locations within a customer's hierarchy. In addition, Customizer discounts (see Section 4.4.4) are automatically applied based upon a customer's specific calling patterns.

##### 2. Access Options

Sprint Clarity offers switched (including ANI and FONCARD) and dedicated (including T-1, Dedicated and Analog Lines) as described in Section 3.1 [Business Communications and Miscellaneous Services](#). See [Sprint Schedule No. 8](#) for all Local Access Facilities components and rates.

##### 3. Billing Increments

Sprint Clarity Outbound and Sprint Clarity Toll Free offer six-second increments with an 18-second minimum for domestic and a 30 second minimum for all international calls except for Toll Free services terminating in Canada, which require an 18 second minimum time requirement per call.

Sprint Clarity SDS offers six-second increments with a 30-second minimum for all domestic and international calls.

4. SPRINT CLARITY (Continued)

1. Overview (Continued)

4. Call Periods

Unless otherwise specified, calls are billed as either peak or off-peak. For Sprint Clarity Outbound and Sprint Clarity Switched Data Services, the customer's local time at the point of call origination determines the Call Period. For Sprint's Toll Free Services the customer's local time at the point of call termination determines the Call Period. Calls beginning in one call period and completing in another call period will be billed according to the rates in effect during each portion of the call. The following Rate Periods apply to all domestic calls.

Peak: 8:00:00 a.m. to 4:59:59 p.m. (Mon - Fri)

Off-Peak: 5:00:00 p.m. to 7:59:59 a.m. (Mon - Fri)  
5:00:00 p.m. to 11:59:59 a.m. (Fri)  
All Hours (Sat and Sun)  
12:00:00 a.m. to 7:59:59 a.m. (Mon)

International time periods are included with the international rates found in this section.

2. Charges

5. Other Charges (Continued)

2. Out of Hours Work Charge

\$150.00 an hour with a \$300 minimum per visit

3. Troubleshooting Charges

1. By Sprint

\$100.00/hour with a \$200.00 minimum per visit

2. By Local Telephone Company

A per visit rate equal to charge assessed Sprint by the local telephone company plus a 5% surcharge for administrative expenses.

3. By Vendor of CPE

A per visit rate equal to charge assessed Sprint by the vendor plus a 5% surcharge for administrative expenses.

3. Usage Charges

If the computed charges of a Sprint Clarity Call include a fraction of a cent, the fraction is rounded up to the next whole cent (for example, \$1.624 would be round up to \$1.63). The full-minute rates below are bill in first 18-second minimum and additional 6-second increments.

An NPA-to-NPA rate structure is provided on interstate usage. This rate structure is further defined by call periods (see Section 4.1.4). This rate structure applies to Sprint Clarity Outbound, Sprint Clarity Toll Free, and Sprint Clarity SDS. These services share the NPA-to-NPA matrix listed in Section 9.3.1 of [Service Areas and Rate Step Tables](#). Refer to this matrix to determine the applicable call area on a per call basis.

Total usage charges for switched or dedicated access consist of a usage charge and/or a surcharge if applicable.

Text currently on this page was previously located in Section 3.3.1, Page 25 and Section 4, Pages 17 and 18 of this schedule. Text previously on this page is now located on Page 4.

4. SPRINT CLARITY (Continued)3. Usage Charges (Continued)

Domestic rates are based on four calling Areas: Corridor, Regional, National and Puerto Rico/U.S. Virgin Islands.

Corridor

Calls which originate and terminate in the following specific northeastern states are classified as either Northeast (NE) Corridor or Capitol Corridor (CC) calls. The NPA-to-NPA calling area table indicator is 4.

<u>Originating States</u>	<u>Terminating State(s)</u>
<u>NE Corridor</u>	
Connecticut	New York
New Jersey	New York; Pennsylvania
New York	Connecticut; New Jersey
Pennsylvania	New Jersey
<u>CC Corridor</u>	
Washington, D.C.	Maryland; Virginia
Maryland	Virginia; Washington, D.C.
Virginia	Maryland; Washington, D.C.

Regional

All calls which terminate in a state that shares a border with the state in which the call originates are classified as regional. In the Great Lakes region, states which border across Lake Michigan are considered to share a border. The NPA-to-NPA Calling Area table indicator is 1 as shown in Section 9.3.1 of [Service Areas and Rate Step Tables](#).

National

All calls not classified as Corridor or Regional and not originating from Puerto Rico and the U.S. Virgin Islands and terminating in the contiguous United States are national. This includes calling between the contiguous United States, Alaska, and Hawaii. National calling also includes calls originating in the contiguous United States, Alaska, Hawaii, Guam (FONCARD and toll free origination only), and CNMI (FONCARD and toll free origination only) and terminating in Puerto Rico, the U.S. Virgin Islands, Guam and CNMI and calls originating in Puerto Rico, the U.S. Virgin Islands and terminating in Alaska, Hawaii, Guam and CNMI. The Sprint Clarity NPA-to-NPA Calling Area table indicators are 2 and 3 as shown in Section 9.3.1 of [Service Areas and Rate Step Tables](#).

4. Discounts

1. Volume Discounts

1. Volume Discounts for Customers with Service Prior to October 1, 1993

For subscribers of Sprint Clarity service prior to October 1, 1993, Volume Discounts are provided on an incremental basis for all Sprint Clarity usage (intrastate, interstate and international) from all Sprint Clarity call types (Sprint Clarity (Switched), Sprint Clarity (Dedicated), Sprint Clarity FONCARD, Sprint Clarity Toll Free (Switched), Sprint Clarity Toll Free (Dedicated) and Sprint Clarity Switched Data Service (SDS)). All Sprint Clarity usage, including card surcharges but excluding Directory Assistance, domestic Operator Services, Feature, Equipment and Access charges within a customer hierarchy will be contributory and eligible to the Sprint Clarity incremental volume discount schedule. Sprint Clarity SDS usage is contributory to but ineligible to receive these volume discounts (see Clarity SDS volume discount information in this section). Other Sprint products which may be included on the invoice (WATS services, for example) will not be contributory or eligible for Sprint Clarity volume discounts. Following are the volume discounts:

Usage	Incremental
<u>Threshold</u>	<u>Volume Discount %</u>
\$0.00 - \$99.99	0%
\$100.00 - \$499.99	1%
\$500.00 - \$999.99	3%
\$1,000.00 - \$9,999.99	7%
\$10,000.00 - \$19,999.99	11%
\$20,000.00 - \$29,999.99	15%
\$30,000.00 +	19%

2. Non-Term Incremental Discount Schedule for Clarity SDS for Customers with Service Prior to October 1, 1993

Subscribers of Sprint Clarity service prior to October 1, 1993 will receive incremental volume discounts on their switched data usage when Clarity SDS is ordered. All Sprint Clarity usage (intrastate, interstate and international) from all Sprint Clarity call types (outbound, inbound, Sprint Clarity FONCARD, switched data) contributes to the volume levels for the Clarity SDS Incremental Volume Discount Schedule, but only Clarity SDS usage is eligible for the discount. Clarity SDS usage contributes towards the establishment of volume levels for the Sprint Clarity Incremental Volume Discount Schedule but Clarity SDS usage is not eligible for a discount from that schedule

	\$20,000.00 - \$29,999.99	8%
	\$30,000.00 +	10%

3. Non-Term Outbound and Inbound Toll Free for Customers with Service as of August 1, 1993

For new customers of Sprint Clarity service as of August 1, 1993 and existing customers of Sprint Clarity service requesting a change in service as of August 1, 1993, volume discounts are provided on a retroactive basis. Usage will be aggregated across Sprint Clarity Toll Free, outbound and travel card (and card surcharges) including all calling options, all locations, all jurisdictions (intrastate, interstate, and international) and all time-of-day periods contribute to the usage threshold and are eligible for the application of the baseline Sprint Clarity volume discounts. Feature, Equipment, Hierarchy, Directory Assistance, Domestic Operator Services (applicable to outbound only), and Access charges are neither contributory nor eligible for these volume discounts. Other Sprint products which may be included on the invoice (WATS services, for example) will not be contributory or eligible for Sprint Clarity volume discounts. Sprint Clarity Switched Data Service (SDS) usage is contributory to but ineligible to receive these volume discounts (See Section 4.4.1.2 for the Clarity SDS volume discount information).

2. Maximum Value Plans

1. Term Options

The Sprint Clarity Term Plans enable customers to receive a higher volume discount on specified Sprint Clarity usage in exchange for a one, two or three year commitment to Sprint and a monthly minimum (per customer hierarchy) usage requirement (total gross usage from all Sprint Clarity locations within a customer's hierarchy). Sprint Clarity MVP customers may add/subtract Sprint Clarity accounts to/from their hierarchy without incurring any liability as long as the customer maintains the monthly minimum usage requirement per Sprint Clarity hierarchy. If the customer fails to satisfy the monthly minimum, the customer shall pay to Sprint the difference between the monthly minimum and the customer's actual charges for Sprint Clarity services.

Sprint Clarity Term Plan discounts are applied in lieu of Sprint Clarity non-term discounts on specified Sprint Clarity usage (domestic and international) from all Sprint Clarity call types (Sprint Clarity (Switched and Toll Free), Sprint Clarity (Dedicated and Toll Free), Sprint Clarity FONCARD access (including Sprint Clarity FONCARD surcharges), but excluding Sprint Clarity Switched Data Service (SDS), Directory Assistance, domestic Operator Services (outbound only), Feature, Equipment and Access charges) within a customer hierarchy.

Sprint Clarity SDS usage is ineligible to receive these discounts, however, Sprint Clarity SDS usage contributes towards the monthly minimum usage requirement. (See Section 4.4.2.3 for the Sprint Clarity SDS volume discount information.)

MVP customers terminating all Sprint Clarity Service prior to fulfilling their term commitment, will be assessed a terminating liability in an amount equal to the monthly minimum usage requirement times the remaining number of months in their MVP contract. The termination liability will be billed in one lump sum. Customers will not incur this termination liability for their former MVP commitment if they request a MVP plan with a new term agreement for a period equal to or greater than the time remaining on their current MVP plan. They will, however, be assessed the termination liability if they terminate all Sprint Clarity service prior to fulfilling their new term commitments or if they reduce their minimum monthly commitment.

4. SPRINT CLARITY (Continued)

4. Discounts (Continued)

2. Maximum Value Plans (Continued)

1. Term Options (Continued)

New customers who enroll in an MVP option may cancel their term arrangement during the first three months of their initial MVP term period without incurring the termination liability. Customers who have previously had an MVP or Sprint Clarity service will not be eligible for this 3-month grace period.

A Maximum Value Plan will automatically renew for an equivalent term and minimum commitment unless the customer provides written notification to cancel the MVP, with such notification being received by Sprint not less than 45 days prior to the expiration of the term.

2. Sprint Clarity Maximum Value Plan for Customers Subscribing to MVP Prior to October 1, 1993 (Incremental)

The following volume discounts apply:

<u>Usage Threshold</u>	<u>One-Year Incremental Volume Discount %</u>	<u>Two Year Incremental Volume Discount %</u>	<u>Three Year Incremental Volume Discount %</u>

3. Term Incremental Discount Schedule for Clarity SDS for Customers Subscribing to MVP Prior to October 1, 1993

Subscribers of Sprint Clarity MVP service prior to October 1, 1993 will receive incremental volume discounts on their switched data usage when Clarity SDS is ordered. All Sprint Clarity usage (intrastate, interstate and international) from all Sprint Clarity call types (outbound, inbound, FONCARD, switched data) contributes to the volume levels for the Clarity SDS MVP Incremental Volume Discount Schedule, but only Clarity SDS usage is eligible for the discount. Additionally, Clarity SDS usage contributes towards the establishment of volume levels for the Sprint Clarity MVP Incremental Volume Discount Schedule but Clarity SDS usage is not eligible for a discount from that schedule. The following volume discounts apply:

<u>Usage Threshold</u>	<u>1 Yr. Incremental Volume Discount %</u>	<u>2 Yr. Incremental Volume Discount %</u>	<u>3 Yr. Incremental Volume Discount %</u>
\$ 0.00 - \$999.99	0%	0%	0%

3. Access Discounts

In addition to the retroactive MVP discounts shown for Sprint Clarity MVP Option A and Option B (See Section 4.4.2), existing and new Sprint Clarity customers will be eligible for additional discounts which will be applied against the applicable loop charges associated with T-1 access circuits.

Existing Sprint Clarity customers who currently are signed up for the incremental MVP discounts (see Section 9) who elect to change their service or upon expiration of their MVP agreements, will be eligible for the access discounts.

The discounts on T-1 charges will be in addition to the basic product discounts. Additional T-1 circuits which are added during the term of the MVP will be eligible for the prevailing access discounts.

The access discounts will be governed by the terms and conditions for Access Term Plans as described in Sprint Schedule No. 8, Section 2.12. Discounts may be found in Section 3.1.2.8 of Schedule No. 8.

4. SPRINT CLARITY (Continued)

4. Discounts (Continued)

4. Customizer Discounts

Customizer discounts are applied automatically based on the calling pattern of the Sprint Clarity customer. The discounts are applied to the most frequently called domestic NPA and the two most frequently called countries, based on gross dollar usage, as described below. Operator-assisted calls are ineligible to contribute to the determination of most frequently called NPA or international location and thus are ineligible to receive Customizer discounts. Customizer discounts are applied on a customer location's usage after all other non-term or MVP discounts have been applied.

1. Most Frequently Called NPA

A 10% discount will be systematically applied to the outbound (switched and dedicated) usage to the most called NPA. Sprint Clarity FONCARD usage (including standalone account usage) also will be eligible for this discount.

A 10% discount will be systematically applied to the outbound (switched and dedicated) usage to the two most called countries. Sprint Clarity FONCARD usage (including standalone account usage) also will be eligible for this discount.

Customizer is available to all Sprint Clarity customers including the Sprint Clarity FAX Targeted Calling Option and the International Targeted Calling Options, except locations subscribed to the Off-Peak Targeted Calling Options. Customers subscribing to the In-State Targeted Calling Option will receive the Customizer international country discounts but will not be eligible for the most frequently called NPA discount. Customers subscribing to the International Targeted Calling Options will receive the Customizer international country discounts to two additional countries (for a total of four) but will not be eligible for the most frequently called NPA discount.

Text currently on this page was previously located on Page 29. Text previously on this page is now located on Page 9.

4. SPRINT CLARITY (Continued)5. Sprint Clarity Targeted Calling Options

The following Sprint Clarity Targeted Calling Options are available. Sprint Clarity customers may choose one, and only one TCO per account.

1. International Targeted Calling Options

The International Targeted Calling Options are available to all new and existing Sprint Clarity customers. For customers subscribing to these options, the applicable Sprint Clarity international usage rates will be applied per call. Only direct dial monthly usage to the international points under the customer selected options will be eligible for discounts (for Sprint Clarity Outbound see Section 4.4.1). Non-direct dial calling (operator service, etc.) neither contributes to the total monthly usage level nor receives the discounts. Additionally, usage to countries not included under the selected customer options contributes to the total monthly usage level but is not eligible to receive Targeted Calling Option discounts. Non-Targeted Calling Option country usage is discounted using the non-term and term discount tables (for Sprint Clarity Outbound see Sections 4.4.1.1 and 4.4.2.2). TCO usage is ineligible to receive MVP discounts.

The International TCO is available with both Term and Non-Term options. Sprint Clarity FONCARD usage contributes to the targeted usage level but does not receive the discounts. The per location Monthly Recurring Charge will be waived once the per location usage level is reached.

1. Atlantic Option\*

Discounted International Points: Andorra, Armenia, Austria, Azerbaijan, Belarus, Belgium, Denmark, Finland, France, Georgia, Germany, Greece, Hungary, Ireland, Israel, Italy, Kazakhstan, Kyrgyzstan, Kuwait, Liechtenstein, Monaco, Netherlands, Norway (includes Svalbard), Poland, Portugal (includes the Azores and Madeira Island), Russia, San Marino, Saudi Arabia, South Africa, Spain (includes the Balearis Is., Canary Is., Ceuta, and Melilla), Sweden, Switzerland, Tajikistan, Turkmenistan, Ukraine, United Arab Emirates (comprised of Abu Dhabi, Ajman, Dubai, Fujairah, Ras-al-Khaimah, Sharjah, and Umm-al-Qaiwain), United Kingdom (comprised of England, Scotland, Northern Ireland, Wales, Isle of Man, and the Channel Islands), Uzbekistan, Vatican City

\* The per location monthly recurring charge will be waived once this per location usage level is reached.

\*\* This option is available only to customers subscribing to the TCO by October 1, 1993. Text currently on this page was previously located in Section 11.3, Pages 5. Text previously on this page is now located on Page 10.

8. Optional Services or Features

1. SiteRP<sup>SM</sup> Toll Free Service

SiteRP Toll Free Service allows the Sprint Clarity Toll Free customer to route incoming calls to customer-specified locations on a call-by-call basis. The customer-specified routing destination and types of calls routed to those destinations are determined based upon the routing logic contained in the Customer-owned and maintained Routing Processor (CRP) located at the customer's premises. The customer is responsible for providing their own routing processor and the routing logic used to respond to inquiries from the Sprint network. Sprint will not be responsible for any errors in call routing caused by the Customer's routing processor decisions and responses to Sprint's SiteRP service inquiries. All toll free numbers with SiteRP<sup>SM</sup> routing must utilize Enhanced Routing services.

Use of the SiteRP requires CLEARLINE Digital Data circuits between all Sprint Service Control Points (SCPs) and the CRP using X.25 protocol. In addition to access charges, a non-recurring installation charge and monthly recurring charge (based on monthly usage) will be charged. Normal Sprint Clarity Toll Free usage and feature charges apply.

\*\* Sprint Guarantees are no longer available for subscription.

9. The Most For Business

1. Description

Built on the Sprint Clarity platform, The Most for Business offers switched (outbound and toll free), The Most for Business FONCARD access for both single and multi-location customers. Only associated customer locations are allowed to participate in The Most for Business offering.

The Most for Business services are contributory and eligible for The Most for Business non-term or term (6\*, 18\*\* month and 1-, 2-, and 3-Year) discounts. The Most for Business also provides discounts which are automatically applied based on the calling patterns of customers. (See Sections 4.9.2 through 4.9.4).

The Most for Business can be customized to meet the unique business needs of small business customers. All features (except Targeted Calling Options) associated with Sprint Clarity outbound (switched), Sprint Clarity Toll Free (switched), The Most For Business FONCARD are available with The Most for Business.

Unless otherwise noted herein, all other recurring and nonrecurring charges associated with the Sprint Clarity switched access options will apply.

2. Retroactive Volume Discounts

The Most For Business customer receives retroactive volume discounts on the customer's aggregated toll free, outbound switched and Sprint Clarity FONCARD (including surcharges) usage across all locations, jurisdictions (intrastate, interstate and international) and rate periods. For states in which the Sprint intrastate schedule contains The Most For Business discounts, the scheduled intrastate discount will be applied to intrastate usage in lieu of the scheduled interstate discount. The Most For Business--Switched Data usage contributes to but is ineligible to receive The Most For Business volume discounts.

\* The Most For Business 6 month term plan is available only to customers subscribing to the plan as of June 3, 1994.

\*\* Effective October 4, 1994, The Most For Business 18 month term plan will no longer be available to new subscribers.

3. The Most Discounts

The Most For Business also provides discounts which are automatically applied based on the calling pattern of customers. Customers may choose between the Most Frequently Called Number or the Customizer. These discounts will be calculated separate from and applied in addition to the retroactive volume discounts and will be based on gross dollar usage. These discounts are applied on the usage at each location. The Most For Business-Switched Data usage is ineligible for these discounts.

1. Most Frequently Called Number

A 20% discount will be systematically applied to the net outbound usage (The Most For Business FONCARD included) to the most frequently called domestic and two most frequently called international numbers.

2. Customizer Discount Option

See Section 4.4.4 for a description of Customizer). A 10% discount will be systematically applied to the net outbound usage (The Most For Business FONCARD included) to the most frequently called domestic NPA and to the two most called countries. Operator-assisted calls are ineligible to contribute to the determination of most frequently called NPA or international location and thus are ineligible to receive Customizer discounts.

\* The Most For Business 6 month term plan is available only to customers subscribing to the plan as of June 3, 1994.  
\*\* Effective October 4, 1994, The Most For Business 18-month term plan will no longer be available to new subscribers.
