
32. SPRINT SOLUTIONS FOR BUSINESS*

Sprint Solutions for Business offers six options which are add-ons to Sprint competitive local exchange services.

A customer who subscribes to a Sprint Solutions for Business service: 1) may not have a phone line classified as a "residential", "public" or "semi-public" line and 2) may not have a phone line in housing associated with educational institutions. Dial-1 local and long distance service provided under Sprint Solutions for Business services applies on a per line basis only and does not include the following: 1) usage associated with multi-party conference calls, 2) FONCARD calls; 3) calls which are pay for use, including calls to 900, 976, 555 and 700 numbers; 4) calls to Directory Assistance; 5) calls which involve an operator service, including busy line verification, emergency interrupt, person to person or station to station calling, and intercept call completion, and 6) toll free service. A customer may not use this service for connection to the Internet or other data service, (including mass broadcast of facsimile transmissions), or for any other use that does not involve a person-to-person conversation or voice message. The customer may not use this service for call forwarding for toll use.

Sprint may deny, for any lawful reason, a customer's request for service, or limit or allocate the facilities available to or utilized by any service, if necessary, to manage its network in an efficient manner; meet reasonable service expectations; furnish service to existing and future customers based on forecasted customer requirements; or for any other lawful reason.

Sprint may, without notice, (consistent with governing laws or regulations) block traffic to local telephone exchanges ("NXX exchanges") individual telephone stations, groups or ranges of individual telephone stations, or calls using certain customer authorization codes, whenever the Company deems it necessary to take such action to prevent: 1) the unlawful use of service; 2) nonpayment for service; 3) the use of service in violation of this Agreement; or 4) network blockage or the degradation of service furnished to the Customer or other Customers.

The following services are for use by business customers. If it is determined that usage is not consistent with business voice applications or in any way violates the restrictions of this service, the customer's service may be assessed a \$100.00* monthly recurring data charge or Sprint may terminate the customer's service.

Sprint will prorate all charges and associated usage in the initial month and last month of service based on a 30-day month.

1. Sprint Custom Access SolutionsSM

Sprint Custom Access Solutions long distance service is available to business customers. The service is an add-on to Sprint Custom Access Solutions competitive local exchange service. The service is available in Ohio, Florida, Kansas, Missouri, and Texas where technically feasible, and is subject to the availability of facilities. The rates, terms and conditions for Sprint Custom Access Solutions competitive local exchange service may be found in the appropriate Sprint competitive local exchange service tariff, where required by law.

* As of March 1, 2005, Sprint Solutions for Business is no longer available to new customers.
