  Avatar Icons .......................................................................................... 128
1. Introduction and Key Features

The Sprint Direct Connect Plus (SDC Plus) application supports two modes: Standard Sprint Direct Connect Plus and Sprint Direct Connect Plus Radio. One of these modes will be assigned by your Corporate Administrator. This document describes the Standard Sprint Direct Connect Plus Mode.

The Standard Sprint Direct Connect Plus mode provides instant communication to individuals and groups at the push of a button. Here is a brief description of the key features of the standard Sprint Direct Connect Plus Mode:

**Alerts**
- **Call Alert** – allows you to send a message to another person asking for a callback.
- **Missed Call Alert** – shown whenever you miss an incoming SDC Plus call because you were either in another SDC Plus call or a regular cellular call.

For more details, please refer to the "Alerts" section.

**Broadcast Calling** – allows certain PTT subscribers to make high-priority one-way calls typically used for making important announcements to large groups.

For more details, please refer to the "Broadcast Calls" section.

**Contact and Group Connect Management** – Sprint Direct Connect Plus contacts and Group Connects can be centrally managed by an administrator ("administrator-managed") or by you ("personal").

For more details, please refer to the "Contacts" section and "Group Connect" section.

**Favorites** – You can manage your own list of favorites for quick access to contacts and Group Connects. For more details, please refer to the "Favorites" section.

**Direct Connect calling to Individuals and Group Connects** – instant communication to one or more people at the push of a button.

For more details, please refer to the "Making Calls" section.

**Real-Time Presence** – see whether your contacts are available and ready to receive calls before making a call. Likewise, indicate whether you want to receive SDC Plus calls to your contacts.

For more details, please refer to the "Real-Time Presence" section.

**Supervisory Override** – allows a supervisor to take the floor and speak at any time during a Group Connect call, even if someone else is speaking.

For more details, please refer to the "Supervisory Override" section.

**Talkgroup Scanning with Priority** – allows a subscriber’s phone to scan through a list of corporate Group Connects for calls. The higher priority Group Connect calls take precedence over lower priority Group Connect calls.

For more details, please refer to the "Talkgroup Scanning" section.
**Wi-Fi support** – in addition to the wide coverage of Sprint Direct Connect Plus service provided by the cellular data network, you can use Sprint Direct Connect Plus over a home, office or public Wi-Fi connection.

For more details, please refer to the "Using Sprint Direct Connect Plus over Wi-Fi" section.

**Note:** In the Sprint Direct Connect Plus, groups (either created by the subscriber or corporate administrator) are also known as Group Connect.

**Note:** If your Corporate Administrator changes your mode of operation, you will see the following message: Information Message: Application mode changed.

**Sprint Direct Connect Plus™ Branding**

There are a handful of Sprint Direct Connect features/functionality that will have a different user experience on Sprint Direct Connect Plus. Following is comparison of the differences:

<table>
<thead>
<tr>
<th>Sprint Direct Connect Feature</th>
<th>Difference / New Feature</th>
<th>Talking Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Guaranteed Talk Permit</td>
<td>Presence</td>
<td>• Guaranteed Talk Permit means, when you hear the “chirp”, you are guaranteed a connection&lt;br&gt;• Presence allows you to see whether a user is available before you press the button</td>
</tr>
<tr>
<td>International Direct Connect</td>
<td>International Roaming</td>
<td>• International Direct Connect allowed call capabilities to push-to-talk enabled devices throughout the Americas including Mexico, Brazil, Chile, Argentina and Peru (but Support has deteriorated)&lt;br&gt;• International Roaming on SDC Plus allows you to take your device anywhere with Wi-Fi or cellular data coverage and make a PTT Call</td>
</tr>
<tr>
<td>Mobile Sync</td>
<td>CAT Tool</td>
<td>• Mobile Sync is a contact management toll that can be used for SDC and has the ability to store UFMIs and PTNs (both PTT and non-PTT)&lt;br&gt;• CAT Tool has greater functionality for managing contacts, but does not allow for UFMIs or non-PTT PTNs. Numbers are available in CAT automatically when SDC Plus is provisioned</td>
</tr>
<tr>
<td>TeamDC</td>
<td>Group Connect</td>
<td>• The term “Group Connect” on SDC Plus applies to previous Group Connect and TeamDC Functionality&lt;br&gt;• All group calling in SDC Plus is included in the base product and requires no extra $ charge.</td>
</tr>
<tr>
<td>UFM And/or PTN</td>
<td>PTN Only</td>
<td>• UFM is not available on SDC Plus</td>
</tr>
<tr>
<td>pdvConnect</td>
<td>Different method of access</td>
<td>• pdvConnect is not integrated into SDC Plus. The customer can still access the pdvConnect Android or iPhone application.</td>
</tr>
</tbody>
</table>
2. Application Installation & Getting Started

This section describes the steps you must take to install the SDC Plus application and how to get started.

This section is organized as follows:

- Prerequisites
- Download
- PTT button Assignment
- First-time Activation
- Activation on an Android Phone
- Activation of Tablet Devices
- Activation using only Wi-Fi Network
- Tutorial
- Login
- Application updates

Prerequisites

2. A supported Android smartphone. For more details, please check the sprint.com website.
3. Battery Saver mode should be turned off otherwise it could interfere with Sprint Direct Connect Plus operation.
4. A Google account to download the application from Google Play store. A Google account can be set up by you or assigned by your employer if it has a corporate account with Google.

Information on creating a Google account: http://support.google.com/accounts/bin/answer.py?hl=en&answer=27441

Information on setting up a phone to use Google Play: http://support.google.com/playgoer/bin/answer.py?hl=en&answer=2521798&topic=2450444&ctx=topic

Download

2. Download the application by touching the “Install” button. The application will download and install automatically.
3. Once the download is complete, select “Open”.

Alternatively, you can search for Sprint Direct Connect Plus, and download the application directly from your phone or from Google Play.
PTT Button Assignment

Kyocera DuraForce PRO

If you are using a Kyocera DuraForce PRO phone, you can assign the programmable PTT key to the Sprint Direct Connect Plus application. To set the Sprint Direct Connect Plus function for the programmable key, follow these steps:

1. Navigate to the phone Settings.
2. Under the section titled “Device”, tap the “Programmable key” option. The current function assigned to the key will be shown.
3. Tap the “Programmable key” menu item. A list of behaviors assignable to the key is shown.
4. Tap “Sprint Direct Connect Plus operation”. The key is now assigned to the Sprint Direct Connect Plus operation.
5. Tap “Wake up device” toggle to ON. A long press on the Direct Connect Button will now wake up the device.

First-time Activation

Activation on an Android Phone

The first time you start the application after download, the application must "activate" with the SDC Plus server. This activation process ensures that you are a Sprint Direct Connect Plus subscriber and that you are using a supported Android phone.

1. On successful download and installation of the Sprint Direct Connect Plus a Push-to-Talk icon will be present in the Apps menu.
2. Tap on the SDC Plus icon under Apps to launch the Sprint Direct Connect Plus application.

Note: When prompted, you must ALLOW the application to record audio, access the device’s location, access contacts, make and manage phone calls, and access photos, media, files, send and view SMS messages on your device.

Note: When prompted, do not optimize battery usage.

3. The End User License Agreement (EULA) page is displayed. You must read and accept the EULA to activate the Sprint Direct Connect Plus service on your phone.
4. If you agree to the EULA, tap Accept to activate the Sprint Direct Connect Plus services on the phone, a confirmation page is displayed.
5. Tap **Yes** to activate the Sprint Direct Connect Plus app.

6. The Sprint Direct Connect Plus app will contact the server and will also retrieve contacts and groups (if any) from the server before logging in.

7. On successful activation of the Sprint Direct Connect Plus service, you can view the tutorial. Press the "**View Tutorial**" on-screen button if you want to learn how to start using Sprint Direct Connect Plus.

**Activation of Tablet Devices**

Activation of a tablet device requires an activation code to be provided separately by your corporate administrator.

This activation process ensures that your subscription is provisioned on a SDC Plus server, and you are a valid Sprint Direct Connect Plus service user, using a supported device.

1. On successful download and installation of the Sprint Direct Connect Plus, the SDC Plus icon will be present in the Apps menu.

2. Tap the SDC Plus icon under Apps to launch the Sprint Direct Connect Plus app.

**Note:** When prompted, you must ALLOW the application to record audio, access the device’s location, access contacts, make and manage phone calls, and access photos, media, files, send and view SMS messages on your device.

**Note:** When prompted, do not optimize battery usage.

3. The End User License Agreement page is displayed. You must read and accept the EULA to activate the Sprint Direct Connect Plus service on your device.

4. If you agree to the EULA, tap **Accept** to activate the Sprint Direct Connect Plus service on your Wi-Fi device. A confirmation message is displayed.

5. Tap **Yes** to continue the activation process. An activation message appears.
6. Enter the activation code given to you by your administrator to activate the Sprint Direct Connect Plus service. The Sprint Direct Connect Plus app will contact the server and retrieve contacts and groups (if any) from the server before logging in.

7. Upon successful activation of the service, you can view a short tutorial. Tap the on-screen “View Tutorial” button if you want to learn how to start using the Sprint Direct Connect Plus app.

**Activation using only Wi-Fi Network**

In situations where the cellular network is not available, you can activate the application over a Wi-Fi network. Your Sprint Direct Connect Plus service provider may allow this functionality.

**Note:** To activate over Wi-Fi, you must have an activation code provided by your corporate administrator.

**To activate Sprint Direct Connect Plus using Wi-Fi network**

1. Tap on the Push-to-Talk icon under Apps to launch the Sprint Direct Connect Plus.

2. The End User License Agreement page is displayed. You must read and accept the EULA to activate the Sprint Direct Connect Plus service on your phone.

**Note:** When prompted, you must ALLOW the application to record audio, access the device’s location, access contacts, make and manage phone calls, and access photos, media, files, send and view SMS messages on your device.

**Note:** When prompted, do not optimize battery usage.

3. If you agree to the EULA, tap Accept to activate the Sprint Direct Connect Plus service on the phone.

4. A confirmation dialog is displayed about the unavailability of the data network with an option to use an available Wi-Fi network. Select Use Wi-Fi option and tap OK. If you see the following confirmation, turn on the Use Wi-Fi setting.
5. An activation message appears. Tap **Yes** to continue the activation process.

![Activate Sprint Direct Connect Plus Service Confirmation Message using only Wi-Fi Network](image)

6. A **No Cellular Connection** dialog is displayed. Tap **Enter Code**.

![No Cellular Connection Message](image)

7. An **Enter Activation Key** dialog is displayed

![Enter Activation Code](image)

8. Enter the activation key received from your corporate administrator and tap **OK** to activate.

**Tutorial**

The tutorial provides helpful information about how to get started with the Sprint Direct Connect Plus app. The application will automatically launch the mobile browser and load the tutorial. To move between pages of the tutorial, swipe your finger right-to-left (to move forward) or left-to-right (to move backward). You can also use the on-screen next and previous buttons shown on the edges of the screen.

**Login**

In order to use the Sprint Direct Connect Plus service, the Sprint Direct Connect Plus app must connect to the SDC Plus server. This process is called “login”. After you download and successfully register your connection with the server, the Sprint Direct Connect Plus app will automatically start and log in each time you power on your phone. To make or receive SDC Plus calls, you will need to log in.
It is possible for you to “logout” of the Sprint Direct Connect Plus service. While you are logged out, you will be shown as “Offline” to others and you cannot receive SDC Plus calls or alerts. See the section “Logout” for more details.

To Manually Login to Sprint Direct Connect Plus

1. Tap on the SDC Plus icon under Apps. A pop-up dialog will be displayed to confirm that you want to login to the Sprint Direct Connect Plus.
2. Tap Yes to Login to Sprint Direct Connect Plus.

Application updates

Google Play Store Settings

When an update for Sprint Direct Connect Plus becomes available and the application was downloaded from the Google Play store, your Android phone will notify you that there is an update available. When installing an update, it is recommended that you enable “Auto-update apps” setting so that you will always have the latest updates to Sprint Direct Connect Plus.

In Application Update Notification

Sprint Direct Connect Plus may indicate that there is an update available. You need to update the application otherwise it may not function properly. See the “Important Message” section for more information.

After updating, your Sprint Direct Connect Plus contacts and groups are always retained. When the Sprint Direct Connect Plus is updated, your history, favorites, and settings are generally retained. In some rare cases of a major update to the application, your history and favorites may be deleted and settings may be reset to their default values.
3. **Navigating the Sprint Direct Connect Plus Application**

Navigating the Sprint Direct Connect Plus (SDC Plus) application is easy using your phone’s touchscreen. The screen consists of four major tabs: History, Favorites, Contacts and Groups. This section will help you get familiar with how to navigate Sprint Direct Connect Plus and is organized as follows:

- History
- Favorites
- Contacts
- Groups
- Call Screen
- Menu
- Actions
- Context Menus
- Sprint Direct Connect Plus button
- Navigating to the previous screen
- One Touch Action
- Scrolling
- Searching
- Icons
- Tones

**History**

The *History* tab displays all your conversation history of calls, contacts, groups, alerts. You can view your history, return a call, view messages, add contacts, delete history and messages. For more information on how to manage your history, see “*History*” section. For information on the history icons, see "*Icons*" section.
The *Favorites* tab displays your favorite Sprint Direct Connect Plus contacts and Group Connects. You can quickly start a SDC Plus call to your favorites. For more information on how to view, add, and remove your favorite contacts, see "Favorites" section. For information on the favorites icons, see "Icons" section.
Contacts

The Contacts tab displays your Sprint Direct Connect Plus contacts and allows you to search for contacts, start a SDC Plus call, or send an alert. If turned on by an administrator, you can also add Sprint Direct Connect Plus contacts and create personal Group Connect groups here. An icon is shown next to a contact which is an Interop user. For more information on how to view, add, edit, and delete your personal contacts, see "Contacts" section. For information on the contacts icons, see "Icons" section.

Groups

The Groups tab displays your Group Connect groups and allows you to search for Group Connects or start a Sprint Direct Connect Plus Group Connect call. If turned on by an administrator, you can also create, change or delete your personal Group Connect groups here. Icons are shown next to the Group Connects in which you are a broadcaster or supervisor. Icons also indicate Talkgroup scan priority. For more information on how to view, add, edit, and delete your personal groups, see "Group Connects" section. For information on the Group Connect icons, see "Icons" section.
Call Screen

The Call screen is the main screen for communication. You make a Direct Connect call, make a quick Group Connect call, turn on/tune off the speaker, send an alert. For more information on how to make and receive calls, see "Making and Receiving SDC Plus Calls" section. For information on the call screen icons, see "Icons" section.
Menu

The menu icon is in the upper-left hand corner of the main screen. Tap the menu icon to access the menu options. These options are as follows:
### Menu Icons

The following table lists the menu icons you will see.

<table>
<thead>
<tr>
<th>Icon</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>No Icon</td>
<td>Display Name. Displays the user’s identity and is displayed to others.</td>
</tr>
<tr>

<td>Settings. Tap to access the application settings. For more details, see &quot;Settings&quot; section.</td>
</tr>
<tr>
<td>About</td>
<td>About. Tap to access more information on the application.</td>
</tr>
</tbody>
</table>

### Actions

The actions soft buttons located at the top and the bottom of the screen let you call, alert, manually dial a phone number, add a new contact or group, and more. For more information on Actions, see the "Actions Icons" section.
Context Menus

Context or popup menus are available throughout the application. To display these menus, touch
and hold the selected history entry, favorite, contact, group, or group details.

<table>

</table>

Sprint Direct Connect Plus button

External Sprint Direct Connect Plus Button

Depending on the phone, there may be a button on the side or a Sprint Direct Connect Plus
accessory that can be used by Sprint Direct Connect Plus. While the Sprint Direct Connect Plus is
not visible, you can always press this button to bring the application to the foreground of the screen.
With Sprint Direct Connect Plus in the foreground, you can use this button to start a SDC Plus Call
or take and release the floor during a SDC Plus Call.

For Bluetooth Low Energy button, see "Using Accessories and Bluetooth" section.
On-Screen Soft Sprint Direct Connect Plus Button

Whenever you initiate or are in a SDC Plus call, you will see an on-screen Sprint Direct Connect Plus button. Touch and hold the on-screen button to take the floor and speak during a call. Release your finger from the on-screen button to release the floor and allow others to speak.

Navigating to the previous screen

To navigate to the previous screen, tap the **Back** button located on the phone. Some screens within the application also has an on-screen button to return to the previous screen.

One Touch Action

When One Touch Action is turned on, Sprint Direct Connect Plus users can call a particular contact or Group Connect or most recent history entry when the Sprint Direct Connect Plus button is pressed once, or assign the Sprint Direct Connect Plus button to open the application to the preferred landing page (History, Contacts, Groups, Favorite Contacts, and Favorite Groups). One Touch Action provides a simplified calling experience for Sprint Direct Connect Plus users who primarily communicate with a single contact or Group Connect.

Note: The One Touch Calling is available on supported devices.

For devices that support One Touch Calling, see “One Touch Calling Behavior” section.
For more information on how to setup or change your landing page, see the “One Touch Action” setting section.

Scrolling

If you are viewing a list that has more entries than can be displayed on one screen, you can touch the list and drag your finger up or down to view the rest of the list.
Searching

Searching allows you to easily find history, favorites, contacts, groups, or locations including addresses, points of interest, and cross streets. The search results are displayed in a list for you to easily scroll and choose the desired result. To search:

1. Touch within the search bar to bring up the on-screen keyboard. As you type, contacts or groups names containing the letters or numbers entered will automatically be displayed.

2. When you find the desired results, tap the returned result.

Note: You must be in the respective screen (history, favorites, contacts, groups) to search. The search function does not search outside the selected screen.
**Icons**

**Actions Icons**

The action icon buttons are located at the top and the bottom of the screen. The following table lists the common actions icons you will see:

<table>
<thead>
<tr>
<th>Icon</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image" alt="Add button" /></td>
<td>Add button. Displayed on the Contacts, Favorites, Groups, and Quick Text. Tap to add contacts, favorites, groups, or quick text.</td>
</tr>
<tr>
<td><img src="image" alt="Alert button" /></td>
<td>Alert button. Tap to send Call Alert to a contact.</td>
</tr>
<tr>
<td><img src="image" alt="Cancel button" /></td>
<td>Cancel button. Tap to cancel current action and go back to previous screen.</td>
</tr>
<tr>
<td><img src="image" alt="Delete button" /></td>
<td>Delete button. Tap to delete the contact, group, etc.</td>
</tr>

<tr>
<td>Floor Busy (Error)</td>
<td>Played when you press the Sprint Direct Connect Plus button and you are unable to take the floor.</td>
</tr>
<tr>
<td>Floor Free</td>
<td>Played to listeners on the call to indicate someone has stopped talking and the floor is available for everyone else to talk.</td>
</tr>
<tr>
<td>Incoming Call</td>
<td>Played once at the beginning of the call to alert you to an incoming SDC Plus call. When Group Connect Scan is ON, Priority 1 calls will have a unique tone. Broadcast calls will also have a unique tone.</td>
</tr>
</tbody>
</table>
4. **Network Connectivity**

This section describes the network connectivity associated with the SDC Plus (Sprint Direct Connect Plus) service. This section is organized as follows:

- Using Sprint Direct Connect Plus over 3G and 4G/LTE cellular data networks
- Using Sprint Direct Connect Plus over Wi-Fi
  - Switching between cellular data networks and Wi-Fi networks during a call
  - Authenticated Wi-Fi Connections (e.g., hotel access)

**Using Sprint Direct Connect Plus over 3G and 4G/LTE cellular data networks**

Using Sprint Direct Connect Plus over 3G and 4G/LTE cellular data networks ensure the fastest speed, least delay, best voice quality, and best performance during SDC Plus calls and when using Sprint Direct Connect Plus services.

**Note:** Use of Sprint Direct Connect Plus over cellular data networks less than 3G is not recommended because the slower data rates cause a considerable amount of delay, which can cause a degradation in voice quality or even dropped calls.

**Using Sprint Direct Connect Plus over Wi-Fi**

Using Sprint Direct Connect Plus over Wi-Fi can provide effective in-building coverage.

**Note:** The Sprint Direct Connect Plus may not use Wi-Fi by default when it is available. To use Wi-Fi for Sprint Direct Connect Plus, turn on the Wi-Fi setting in the application. For more details, please refer to the “Settings” section.

**Switching between cellular data networks and Wi-Fi networks during a call**

Your phone may automatically switch between the cellular data network and a Wi-Fi network depending on the availability of a Wi-Fi connection. This is known as a “handover” between networks. If you are on a SDC Plus call when your phone switches between the cellular data network and a Wi-Fi connection (or vice versa), your SDC Plus call will automatically be reconnected after the handover. During a handover, the Sprint Direct Connect Plus momentarily loses connection with the servers. When this occurs, you will experience a short loss of call audio. You are notified of this condition by two short tones. Once the handover is complete and Sprint Direct Connect Plus reconnects to the data network, your call will automatically continue. It is possible that the handover takes more than a few seconds. In this case, a call in progress may not be automatically reconnected. If this happens, you can call back from Sprint Direct Connect Plus history.
Authenticated Wi-Fi Connections (e.g., hotel access)

Sprint Direct Connect Plus can also be used at any Wi-Fi location provided your phone has access to the Internet through that Wi-Fi network. In hotels or other places that provide Wi-Fi access only to patrons, some sort of authentication such as a password may be required to access the Internet, even though the phone is connected to the Wi-Fi network. In this case, Sprint Direct Connect Plus service will not be available (you cannot place or receive SDC Plus calls) until you either turn off Wi-Fi or launch your mobile browser and enter the password provided by the Wi-Fi service provider.
5. Making and Receiving SDC Plus Calls

This section describes the steps to make and receive SDC Plus calls. This section is organized as follows:

- Making Calls
  - Direct Connect One-to-One (1:1) Calls
  - Group Connect Calls
  - Quick Group Connect Calls
  - Broadcast Calls
  - Call from History
  - Call from Missed Call Alert
  - Call from Call Alert
  - One Touch Calling Behavior
  - Call Behavior While the Screen is Locked
- Manual Dial Calls
- Receiving Calls
  - Receiving Broadcast Calls
  - Broadcast Call History
  - Turning the Speaker On/Off and Set SDC Plus Call Volume
  - Interaction with Silent or Sound Mode
  - Interaction between Sprint Direct Connect Plus and cellular calls
  - SDC Plus Call Behavior While the Application is in the Background
  - SDC Plus Call Behavior While the Screen is Locked
  - Rejoining a Sprint Direct Connect Plus Group Connect Call
Making Calls

Direct Connect one-to-one (1:1) Calls

1. From the contact list, tap the contact to select the one you want to start a Direct Connect call with.

   Contacts

2. The Call screen is displayed.

3. Press and hold the on-screen PTT button, a Direct Connect call is started, a chirp tone is heard and the PTT button changes color indicating you have taken the floor.

   Direct Connect Call in Progress

4. Release the PTT button to allow the other person on the call to take the floor and speak.
No One Is Speaking in a Direct Connect call

5. Tap the **End Call** button to end the call.

**Group Connect Calls**

1. From the group list, tap the group to select the one you want to start a Group Connect call.

   **Groups**

   **Note:** Some corporations may automatically assign a group connect called “all_subscribers_group”. This group has all the Sprint Direct Connect Plus subscribers from your corporation.

2. The **Call screen** displays.
Start the Group Connect Call

3. Press and hold the PTT button displayed on the screen, a Group Connect call is started, a chirp tone is heard and the PTT button changes color indicating you have taken the floor.

You Are Speaking in a Group Connect Call

4. Release the PTT Plus button to allow other members of the call to take the floor and speak.
5. Tap the **End Call** button to end the call.

**Quick Group Connect Calls**

1. From the Contacts tab, select your first contact to call.

   **Contacts**

   2. Call screen displays.
3. Tap the **Add Participants** button. The **Select Contacts** screen displays.

4. Select up to 9 contacts to add to the quick group connect call. When completed, tap the **Save** button located in the upper right.

5. Press and hold the on-screen PTT button, a Quick Group Connect Call is started, a chirp tone is heard and the PTT button changes color indicating you have taken the floor.
You Are Speaking in a Quick Group Connect Call

6. Release the PTT button to allow the other members of the group to take the floor and speak.

7. Tap the **End Call** button to end the call.

Broadcast Calls

Broadcast calls make it possible to deliver important information quickly to a large group. Only certain group members, called broadcasters, may initiate a one-way call to a Group with up to 500 members. A Broadcast Call preempts any ongoing SDC Plus call and receiving members cannot call back or reject the call. Once a broadcaster takes the floor, the broadcaster will not be preempted by another broadcaster. You will only see a Broadcast Group if you are a designated broadcaster by your Corporate Administrator.

**Note:** Broadcast calls will interrupt ongoing SDC Pluc calls for the Group Connect members and they will hear the call even if they have Do Not Disturb turned on. These calls also override the Do Not Disturb (DND) status if the Corporate Administrator has set the call to do so.

1. Tap the Broadcast Group you want to call. The Broadcast Group is identified in the group list by the Broadcast Group icon displayed on the bottom right corner of the group tile.
2. A confirmation dialog is displayed as shown below.

3. Tap **Call** to initiate the call. The SDC Plus call screen is displayed as shown below.
4. Press and hold the PTT button, a Broadcast Call is started, a chirp tone is heard and the PTT button changes color indicating you have taken the floor. Begin speaking.

5. Release the PTT button when you have finished speaking.

6. Tap the End Call button to end the broadcast call.
Call from History

1. Tap on the History tab to view the history of Calls and Call Alerts.

2. Touch on the conversation you want to call, a call screen will be displayed as shown below.

Initiate a Call from a History Entry

3. Press and hold the PTT button displayed on the screen, a SDC Plus call is started, a chirp tone is heard and the PTT button changes color indicating you have taken the floor.

Call from Missed Call Alert

On receiving a Missed Call Alert, you will receive an alert tone and a pop-up message will be displayed. For more details, see "Missed Call Alert" section.
1. Tap the **Reply** button to place the call.
   
   OR
   
   Tap the **Not now** button to dismiss the message.

### Call from Call Alert

1. On receiving a Call Alert, you will receive an alert tone and a pop-up message will be displayed. For more details, see "Call Alert" section.

```
Call Alert
Dec. 01 2017 10:58pm
Joe Marsden sent you a call alert.
```

#### Call Alert Message

2. Tap the **Reply** button to place the call.

   OR

   Tap the **Not Now** button to dismiss the message.

### One Touch Calling Behavior

You can originate a Direct Connect call to one of the following:

- the most recent history event
- to a user-selected Sprint Direct Connect Plus contact
- to a user-selected Sprint Direct Connect Plus Group Connect (corporate or public)

---

**Note:** The One Touch Calling is available on supported devices.

The One Touch Calling behavior must be preconfigured for these actions. For more information on how to setup One Touch Calling, see the "One Touch Action" setting.

### Call Behavior While the Screen is Locked

You can originate a SDC Plus call to the selected Group Connect when the device is locked by pressing a PTT Button. The Call from Lock Screen setting must be turned on. For more information on the Call from Lock Screen, see the "Settings" section.

---

**Note:** The Call From Lock Screen setting is available on supported devices.
Manual Dial Calls

The Manual Dial screen allows you to manually call a Sprint Direct Connect Plus contact.

2. Begin entering the contact number using the on-screen keyboard. If the number matches Sprint Direct Connect Plus contacts, they will be displayed. If you want to call one of those contacts, touch the contact, and the number fills the numeric text field.

3. Tap the on-screen PTT button located at the right of the phone number. The Call screen displays.
Receiving Calls

1. When you receive an incoming SDC Plus call, the application will be brought to the foreground and the PTT button will change color.

![Receive an Incoming SDC Plus call](image)

**Note:** This behavior assumes that Background Calling is turned off. For more details on Background Calling, see "SDC Plus call Behavior While the Application is in the Background" section.

**Note:** Incoming SDC Plus calls will respond differently based on the combination of the phone settings and the Sprint Direct Connect Plus settings. For more information, refer to the "Interaction with Silent or Sound Mode" section.

2. Whenever the talker releases the floor, the PTT button changes and the PTT button changes color and the floor is available for another talker.

![No One is Speaking in an Incoming SDC Plus call](image)

3. You can continue the conversation by touching and holding the PTT button on the screen.

4. Tap the **End Call** button to end the call.
Receiving Broadcast Calls

An incoming broadcast call looks like any other Group Connect call but will preempt other SDC Plus calls in progress. You can recognize a broadcast call because there will be a special tone played followed by an announcement. During the call, only the broadcaster can speak and you will not be able to take the floor. These calls also override your Do Not Disturb (DND) status if the corporate administrator has set the Group Connect to do so.

Only certain Group Connect members may make broadcast calls. If you are not allowed to make calls to a Broadcast group you will not see it listed in the groups tab. If you try to call a broadcast group from history, you will see a message indicating that the call cannot be completed.

Broadcast Call History

Outgoing broadcast calls are shown in call history like other calls, but with a different icon and call type indicated.

Broadcast Call History

A summary of call delivery is shown in the Group tab history detail for the selected Broadcast Call. The number of members who received the call is shown along with the total number of Broadcast call members.
Calls might not be delivered to everyone because a member may be offline, engaged in a cellular call, have a Do Not Disturb status, or listening to another broadcast call. Calls are delivered in a way such that members may receive the call at slightly different times. Once the call delivery process is complete, the delivery status will be shown.

**Turning the Speaker On/Off and Set SDC Plus Call Volume**

On the Call screen, there is a toggle that indicates whether the speaker is ON or OFF for SDC Plus calls. When the speaker is off, you will hear the SDC Plus call audio in the phone’s earpiece and when it is OFF the audio is heard through the speaker.

During a SDC Plus call, the speakerphone or earpiece volume can be increased or decreased using the volume up and down keys. The volume adjusted during a SDC Plus call will be used for subsequent calls including cellular calls.

**Tip:** The SDC Plus call volume can be adjusted using the device volume keys. When the Direct Connect Button setting is set to any option other than “Volume Up/Down”. For more on how to set the Direct Connect Button setting, see "Direct Connect Button" section.

On the call screen, press the Speaker ON/OFF toggle switch. A Volume Control popup displays.
Volume

Volume Control - Speaker OFF

Adjust the Volume Control slider to the desired position. Press the Speaker ON/OFF toggle switch to turn on/off the speaker. Press OK when you are finished changing the volume.

The following figure shows an example of the location of the speaker ON/OFF button:

Call Screen

The speaker can also be turned OFF from the application settings. See the setting "Call Screen Icons" for more details.

Interaction with Silent or Sound Mode

When your phone's ringer is set to silent or vibrate-only, SDC Plus calls are played over the phone's earpiece. To hear a SDC Plus call, you should hold the phone to your ear as during a cellular phone call. You can temporarily switch to the loudspeaker using the on-screen speaker on/off button for the current call. The next SDC Plus call will again use the phone's earpiece while the phone is in silent mode.

Privacy Mode allows you control how incoming SDC Plus calls are handled whenever your phone ringer setting is set to "silent" or "vibrate-only". With Privacy Mode, you can control whether an incoming SDC Plus call is heard normally or if the SDC Plus call uses the phone earpiece. For more information on how to set Privacy Mode, refer to the "Settings" section.

You can set the phone to vibrate for incoming SDC Plus calls if the incoming Call Vibrate setting is ON. For more information on how to set incoming Call Vibrate, refer to the "Vibrate Call" section.
Interaction between Sprint Direct Connect Plus and cellular calls

Answering a regular phone call while on a SDC Plus call

If you receive an incoming regular phone call while you are in a SDC Plus call, the ongoing SDC Plus call continues and an incoming cellular call is rejected.

If Call Priority setting is set to Cellular, an ongoing SDC Plus call will end if a cellular call is answered. For more information on Call Priority, see the "Settings" section.

Receiving a SDC Plus call when on a regular phone call

If you receive a SDC Plus call while you are on a regular call, the ongoing cellular call continues and an incoming SDC Plus call is rejected with user busy indication regardless of the Call Priority setting. You will receive a Missed Call Notification at the top of your screen. After the call ends, you will hear a missed call alert tone.

For more information on Call Priority, see the "Settings" section.

Missed Call Notification

After the current regular call ends, you can make a SDC Plus callback to the caller from the Missed Call Alert displayed in Sprint Direct Connect Plus.

Missed Call Alert Message
SDC Plus call Behavior While the Application is in the Background

Incoming SDC Plus calls— with Background Mode Turned OFF
While you are using other applications on the phone, an incoming SDC Plus call will bring the Sprint Direct Connect Plus to the foreground and you will hear the caller’s voice. At the end of the SDC Plus call, the application automatically returns to the background after the call. The Sprint Direct Connect Plus will go to the background at the end of the call and will display the previously viewed application in the foreground.

Incoming SDC Plus calls — Background Mode
When Background Mode is turned on and you receive an incoming SDC Plus call, the Sprint Direct Connect Plus will remain in the background and you will hear the caller’s voice. You must bring the Sprint Direct Connect Plus to the foreground in order to use the on-screen PTT button. For more information on Background Mode, see the "Settings" section.

Tip: If your phone has a PTT button, you can press the button to take the floor while the application is in the background.

Note: If the backlight is OFF, it will remain OFF during an incoming SDC Plus call. Call Alerts are not visible until you access Sprint Direct Connect Plus; however, you will still receive audible alerts, if turned on.

Ongoing SDC Plus calls
During a SDC Plus call, if you navigate away to another application, you will continue to hear the SDC Plus call, but you will not be able to take the floor and speak until you return to Sprint Direct Connect Plus.

Tip: If your phone has a PTT button, you can press the button to take the floor while the application is in the background.

SDC Plus call Behavior While the Screen is Locked
You can originate a SDC Plus call to the selected Group Connect when the device is locked by pressing a PTT hard key, wired accessory, or Bluetooth RSM. The Call From Lock Screen setting must be turned on. For more information on the Call From Lock Screen, see the "Settings" section.

Note: The Call From Lock Screen setting is available on supported devices.

Rejoining a Group Connect Call
Rejoining a Group Connect Call
If you leave during a Group Connect call, you can rejoin it by initiating a call to that group again, either from the call history or from the group list. If the call ended before you try to rejoin, you will start a new call to that group.
Joining a Missed Group Connect Call

If you miss a Group Connect call, you have the option on the missed call alert to directly call the group. If the Group Connect call is still in progress, you will be automatically joined to the ongoing call. Otherwise, you will start a new call.
6. **Supervisory Override**

Supervisory override allows a Group Connect member to be designated by an administrator as a supervisor and be able to take the floor and speak at any time during a call, even if someone else has the floor. One or more members of a group can be designated as supervisor. If there are two or more supervisors in the same Group Connect, each supervisor can interrupt the other(s).

This section describes supervisory override and is organized as follows:

- Supervisor Talkgroup
- Supervisor Talkgroup Members

## Supervisor Talkgroup

A Group Connect supervisor will see a supervisor icon displayed next to the name of the Group Connect and next to the word "You" in the status bar when they take the floor.
Supervisor Talkgroup Members

A non-supervisor Group Connect member will be able to identify supervisors by an icon next to the supervisor’s name.
7. Alerts

This section describes the alerts used in the SDC Plus (Sprint Direct Connect Plus) application and is organized as follows:

- Call Alert
  - Sending an Alert
  - Receiving an Alert
- Missed Call Alert (MCA)
- Multiple Missed Call Alerts/Call Alerts per Caller
- How to Set the Sprint Direct Connect Plus Alert Volume

Call Alert

A Call Alert is a notification that you can send to another Sprint Direct Connect Plus contact to request a callback. Call Alerts can only be sent to individual contacts.

Sending an Alert

1. Select the contact from the contact list.

Note: Alerts can also be sent from History tab and Call screen using the Alert button.
2. The Call screen displays.

3. Tap the Alert button to send the alert to the selected person. A 'Sending Alert' information message is displayed.

---

Note: The “Sending Alert” message indicates that the application successfully delivered an alert request to the server. This message does not mean the person received the alert.

---

Receiving an Alert

1. Whenever someone else sends you an alert, Sprint Direct Connect Plus will notify you with a persistent alert dialog displayed and an audible tone is played (subject to Silent Mode behavior).

---

Call Alert

Dec. 10 2017 4:30pm
Joe Marsden sent you a call alert.

Reply Not now

---

Call Alert Behavior

The Call Alert behavior is one of the following based on the setting:

- Persistent alert dialog is displayed and an audible tone is played (default)
- Persistent alert tone is played but no alert dialog is displayed.
- Persistent alert dialog is displayed but no alert tone is played.
- No alert dialog is displayed and no alert tone is played.
For more information on the Call Alert, see the "Settings" section.

**Note:** When you are on a cellular call or SDC Plus call, the Call Alert is deferred until after the call ends and will displayed when Sprint Direct Connect Plus is idle (not in a call). Only last call alert is displayed (no queuing).

2. You can call the person back by tapping the Reply button. If your phone has a PTT button, you can also press it to call the person back while the alert is displayed. Whenever you receive an alert, it is shown in the call history
   OR
   You can also tap the Not Now button to dismiss the alert without calling back.

**Tip:** Whenever you receive an alert, it is shown in the call history

---

**Missed Call Alert (MCA)**

Your phone will alert you whenever you miss a SDC Plus call for the following reasons:

- You are on a regular cellular call when a one-to-one or group SDC Plus call is made that includes you.
- You are already on a SDC Plus call and another one-to-one or group SDC Plus call is made that includes you.
- Your phone receives a Direct Connect call and you do not reply by taking the floor and speaking back. You will not receive a missed call alert if you do not reply to a Group Connect call.
- Your self-presence is DND. In this case, the history will be updated silently. You will not receive a pop-up notification.

For more information on configuring the Missed Call Alert, see the "Settings" section.

**Note:** You will not receive a missed call alert for a Direct Connect call if you end the Direct Connect call before speaking back.

1. A Missed Call Alert is displayed as shown below.

   ![Missed Call Alert Message]

   **Missed Call Alert**
   
   You received a Missed Direct Connect Call from Joe Marsden at Dec. 10 2017 4:30pm
   
   **Reply**  **Not now**

   **Missed Call Alert Message**

2. Tap Reply to make a Direct Connect call OR
   Tap Not now to dismiss the message.
Multiple Missed Call Alerts per Caller

When you receive multiple Call Alerts, only the latest alert will be shown on the display after the call ends. All the previously received Call Alerts are available in the SDC Plus call history.

Similarly, when you receive multiple missed call alerts from a single caller or group, only the latest alert will be shown on the display. All the previously received missed call alerts are available in the SDC Plus call history.

How to Set the Sprint Direct Connect Plus Alert Volume

The phone-wide Notification Volume controls the volume of Sprint Direct Connect Plus alert tones. Adjust the volume to the desired level for Notifications.

For more information on your phone volume controls, refer to your phone owner’s manual.
8. **Real-Time Presence**

This section describes real-time presence using the SDC Plus (Sprint Direct Connect Plus) application. This section is organized as follows:

- **My Presence**
- **Sprint Direct Connect Plus Contact Presence**

With real-time presence, you can tell at a glance if the person you want to call is Available, Do Not Disturb (DND), or Offline. DND and offline contacts do not receive SDC Plus calls. The presence indicator is displayed next to the name of the contact. Likewise, you can tell others of your availability by selecting either “Available” or “Do Not Disturb” within Sprint Direct Connect Plus. When you turn off your phone, you are automatically marked as “Offline” to others.

### My Presence

My Presence or self-presence can be seen just above the Top-Level tabs and in the notification bar. For more information on the icons, refer to the "Presence Icons" section.

![Self-Presence Status Available](image)

### Self-Presence Status Available

2. Choose the presence state you want to set

![Self-Presence Status Options](image)

### Self-Presence Status Options

3. The Self-Presence icon and text will be updated on the Self-Presence Bar and the icon on the screen status bar.

![Self-Presence Status Do Not Disturb](image)

### Self-Presence Status Do Not Disturb

**Meaning of Presence**

**Available:** You are logged into Sprint Direct Connect Plus, ready to receive SDC Plus calls and Call Alerts.

**Do Not Disturb (DND):** You are logged into Sprint Direct Connect Plus, not willing to receive a SDC Plus call but can receive a Call Alert.
Offline: You are logged out from Sprint Direct Connect Plus and will not be able to receive SDC Plus calls and alerts.

No Connection: When Sprint Direct Connect Plus cannot communicate with the SDC Plus server, it will display “Offline” in the Status bar or System Notification and your availability will show “No Connection”. For more information, refer to the “Loss of Data Network Connection” section.

Self-Presence Status No Connection

Calling Restrictions
When you are in the DND state, you cannot receive SDC Plus calls, but you can make SDC Plus calls to other available users.

Call Alert Origination Restrictions
When you are in the DND state, you will not be able to send a Call Alert to other contacts since you cannot receive calls from others. If you try to send an alert, you will see the following message:

Do Not Disturb Information Message

Sprint Direct Connect Plus Contact Presence
Contact presence can be seen in the contact list indicated by an icon next to the contact’s name. The following Image shows an example:
Meaning of Available, DND and Offline

**Available:** The Sprint Direct Connect Plus contact is logged into the Sprint Direct Connect Plus, ready to receive SDC Pluc calls and Call Alerts.

**Do Not Disturb (DND):** The Sprint Direct Connect Plus contact is logged into the Sprint Direct Connect Plus, not willing to receive SDC Plus calls but will be able to receive Call Alerts.

**Offline:** The Sprint Direct Connect Plus contact is logged out from the Sprint Direct Connect Plus and will not be able to receive SDC Plus calls and alerts.

For a description and list of all icons, see the "Icons" Section.

**Calling Restrictions**

When a contact is in the DND state, you cannot place a SDC Plus call to that contact. If you try to make a call to a contact with the DND status, you will see the following message:

```
Information

The Contact you are trying to call is in 'Do Not Disturb' status.
Please try again later.

OK
```

**Do Not Disturb Information Message**

**Using Call Alerts for DND contacts**

To contact a person with a DND status, you can send a Call Alert to request a callback.
9. **History**

This section describes the history tab using the SDC Plus (Sprint Direct Connect Plus) application. The history holds all the conversation history of contacts, groups as well as quick group connect calls and is organized as follows:

- Access the History Tab
- Search History
- History Icons
- Access Conversation Details
- Make a SDC Plus call
- Add Contact
- Delete History
- Delete Message

The History tab displays all your conversation history of calls, contacts, groups, alerts. You can view and search your history, return a call, add contacts, delete history and messages. The History tab contains two-level screens: main screen and details screen. The main screen contains the high-level view. The second-level screen contains the conversation details.

Each top-level history entry displays the conversation type (Broadcast Call, Group Connect Call, Quick Group Connect Call, Direct Connect Call), contact name, group name or participant names for quick groups, and a time stamp.

![History Tab Image]

**Access the History Tab**

To access the History, tap the History tab located at the upper left of the screen.
Search History

You can use the search box to search for history. To search History, see "Searching" section for more information.

History Icons

For more information on the History icons, see "History Icons" section.

Access Conversation Details

To access the conversation details, tap the History Details button located to the right of the entry. From the conversation details screen, you can view history and send alerts.

Make an SDC Plus Call

1. To make an SDC Plus Call, tap the history entry. The Call screen displays.
2. Press and hold the PTT button or the on-screen PTT button to talk. See "Call from History" for more information.

Add Contact

You can add a contact if the contact is not already in your contact list.

1. From the top-level screen, tap and hold the history entry. A context menu displays.
2. Tap the Add Contact option. The New Contact screen displays.
   See "Add a Contact" for more information.

Delete History

You can delete any history entry.

1. From the top-level screen, tap and hold the history entry. A context menu displays.
2. Tap the Delete History option. The History for this contact or group will be removed. Continue? displays.
3. Tap Yes to delete or No to cancel.

Delete Message

You can delete a message to a contact on the details screen.

1. Tap the History Details button.
2. Tap and hold the history entry. A context menu displays.
3. Tap the Delete Message option. A delete confirmation message displays.
4. Tap Yes to delete or No to cancel.
10. **Favorites**

The SDC Plus (Sprint Direct Connect Plus) favorite contacts and favorite groups are separate from the group list on the phone.

This section is organized as follows:

- Favorite Icons
- Search Favorites
- View or Edit Favorite Contacts
- Add Favorite Contacts
- Remove Favorite Contacts
- View or Edit Favorite Groups
- Add Favorite Groups
- Remove Favorite Groups

**Maximum Number of Favorites**

The following table lists the maximum number of favorite contacts and favorite groups allowed on your device.

<table>
<thead>
<tr>
<th>Favorites</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Contacts (total)</td>
<td>300</td>
</tr>
<tr>
<td>Groups (total)</td>
<td>50</td>
</tr>
</tbody>
</table>

**Maximum Favorite Contacts and Favorite Groups**
Favorite Icons

For more information on the Favorites icons, see "Icons" section.

Search Favorites

You can use the search box to search for favorites. To search favorites, see "Searching" section for more information.

View or Edit Favorite Contacts

The Favorite Contacts screen shows a list of all your favorite Sprint Direct Connect Plus contacts as well as their current presence status. You can view or edit favorite contacts using the Contact Details screen.

Add Favorite Contacts

1. From the Favorite Contacts screen, tap the Add button on the action bar. The Select Favorites screen displays.

   Note: Groups can be added to Favorites from the Group tab or history entry for that group.

2. Scroll and select one or more contacts to add as a favorite.

3. Tap the Save button on the action bar to save your favorite. The Favorite Contacts screen displays.
Remove Favorite Contacts

1. From the *Favorites Contacts* screen, tap and hold on the favorite to remove. The *Remove Favorite* option displays.

   ![Remove Favorite Contact](image)

2. Tap the *Remove Favorite* option. The contact is removed from the favorites.

View or Edit Favorite Groups

The Favorite Groups screen shows a list of all your favorite Sprint Direct Connect Plus groups as well as their current presence status. You can view or edit favorite groups using the *Group Details* screen.

Add Favorite Groups

1. From the Favorite Groups screen, tap the *Add* button on the action bar, and select one or more groups. The Select Favorites screen displays.
Select Favorite Groups

2. Tap the **Save** button on the action bar to save the group. The group is shown in the Favorites tab under **Groups**.

Remove Favorite Groups

The list of personal favorite groups is shown on the Favorite Groups screen.

1. From the **Favorites Groups** screen, tap and hold on the favorite to remove. The **Remove Favorite** option displays.

2. Tap the **Remove Favorite** option on the action bar to remove the group as a favorite. The group is now removed from the Favorites Groups screen.
11. Contacts

This section describes SDC Plus (Sprint Direct Connect Plus) contacts using Sprint Direct Connect Plus and is organized as follows:

- Contact Icon
- Search Contacts
- View Contacts
  - Contact list sorting
  - Show or hide offline contacts
- View Contact Details
- Add a Contact
  - Add a new contact by entering manually
  - Import a new contact from the device's contact list
- Edit Contact Details
  - Edit a contact name
  - Add or change a contact avatar
  - Change contact color
  - Make contact a favorite or remove as a favorite
- Delete a Contact

The SDC Plus (Sprint Direct Connect Plus) contacts are separate from the contact list on the phone. There are two types of contacts: those that are managed by an administrator and those that are managed on the phone by the user.

Administrator-Managed Contacts

Sprint Direct Connect Plus contacts are managed by an administrator. Administrator-managed contacts cannot be deleted or changed from within the Sprint Direct Connect Plus.

Personal Contacts

Personal contacts are imported from the contact list in the phone or entered manually. Personal contacts are managed by you within the Sprint Direct Connect Plus. You will not have the ability to create contacts if the corporate administrator has restricted this feature.

Maximum Number of Allowed Contacts

The following table lists the maximum number of contacts allowed on your phone:

<table>
<thead>
<tr>
<th></th>
<th>Contacts</th>
</tr>
</thead>
<tbody>
<tr>
<td>Administrator-Managed</td>
<td>1000</td>
</tr>
<tr>
<td>Personal</td>
<td>300</td>
</tr>
</tbody>
</table>

Maximum Contact
Contact Icon
For more information on the Contacts icon, see "Contacts Icon" section.

Search Contacts
You can use the search box to search for contacts. To search contacts, see "Searching" section for more information.

View Contacts
The Contacts tab shows your personal Sprint Direct Connect Plus contacts and contacts added by an administrator. You can view and sort the contacts based on alphabetical order or based on the availability of the contacts from the application settings.

Contact list sorting
Normally you see all your Sprint Direct Connect Plus contacts listed in alphabetical order when you view the contact list. When the Contact Sorting setting option is changed to By Availability, Available and DND are sorted alphabetically first followed by Offline alphabetically. The contact list will update each time a contact changes from online to offline or vice versa.

1. From within the Menu, tap the Settings option.
2. Scroll down and tap the “Contacts Sorting” setting. A pop-up displays.
3. Select either **by Alphabetical** or **by Availability**.

4. Tap the **Back** button located on the top of the screen. You will be able to see the contact list sorted according to your selection.
Contacts Sorted Alphabetically

Contacts Sorted by Availability

Show or hide offline contacts

Normally you can see all your Sprint Direct Connect Plus contacts when you view the contact list. You have the option to hide offline contacts and show only contacts whose presence status is ‘Available’ or ‘Do Not Disturb’. While showing only online contacts, the contact list will update each time a contact changes from online to offline or vice versa.
**Tip:** If all your contacts are currently offline, you will see the message ‘No Online Contacts’ displayed. If you wish to see all your contacts, follow the steps later in this section that describes how to show all contacts.

**To show only online contacts**

1. While viewing the contacts list, click the **Hide Offline** button located on the bottom of the screen.

2. The contact list will now show only the contacts that are either ‘Available’ or ‘Do Not Disturb’.

**To show all contacts**

1. While showing only the online contacts in the contacts list, click the **Show Offline** button at the bottom of the screen.
2. The contact list will now show all the contacts, including those that are ‘Available’, or ‘Do Not Disturb’.

**View Contact Details**

1. Select a contact from the contact list, touch and hold. A context menu displays.

   **Tip:** The Contact Details can also be accessed from the Call screen by tapping the Details button location in the top of the screen.

2. Tap the **Contact Details** option in the context menu. The Contact Details screen will be displayed, as shown below.

   **Note:** To edit the contact details, see “Edit Contact Details” section.
Add a Contact

You can add personal contacts to your contact list unless restricted by the administrator. To view contacts, see "View Contacts" section.

Add a new contact by entering manually

1. Tap the Add button located at the bottom of the screen. A context menu displays.

   ![Add Contacts Options](image)

2. Select the New Contact option to manually add the contact details. The New Contact screen displays.

   ![New Contact](image)
3. Type the contact’s name and Sprint Direct Connect Plus phone number, and then tap the **Save** button. The contact can also be assigned with an avatar, a unique color, and the contact can be marked as favorite.

**Tip:** You can also add a contact as a favorite from the Favorites tab. For more information on Favorites, see the "Favorites" section.

4. After saving, the contact will appear in the contact list.

**Import a new contact from the device's contact list**

1. Tap the **Add** button at the bottom of the screen. A context menu displays.

2. Select the **Import Contact** option to add a Sprint Direct Connect Plus contact from your phone contact list.

**Note:** The first time you try to import a contact, you may be asked to allow the application permission to access the contact list.

3. Select a contact from the contact list. The **New Contact** screen displays. The contact can also be assigned with an avatar, a unique color, and the contact can be marked as favorite.

4. Tap the **Save** button when finished to save the new contact. The contact will appear in the Sprint Direct Connect Plus contact list.

**Edit Contact Details**

You can only edit contacts that you create yourself. An administrator-managed contact name cannot be edited. However, you can add or change an avatar, add or change a color, and add a contact to favorites.

An existing contact’s number cannot be edited. To change an existing contact’s phone number, the contact needs to be deleted and then added back with a new number.
To view the Contact Details, see “View Contacts” section.

From the Contact Details screen, you can perform any of the following tasks listed within this section as follows:

• “Edit a contact name”
• “Add or change a contact avatar”
• “Change contact color”
• “Make contact a favorite or remove as a favorite”

Edit a contact name

1. Tap the contact name field.

**Tip:** A contact name with an underline indicates that the field can be edited. Administrator-managed contacts cannot be edited.

2. Type the contact name using the on-screen keyboard.

3. When finished, tap the **Save** button or continue to change other contact details.
Add or change a contact avatar

1. Tap the avatar option. The Select Avatar screen displays. For list of all avatars available and their definitions, see "Avatar Icons" section.

![Select Avatar](image)

2. Select an avatar from the list. You can also take a photo or select an image from your phone’s gallery using the buttons at the bottom of the screen.

   **Note:** The first time you try to take a photo, you may be asked to allow the application permission to access the gallery.

3. Tap the Save button on the **Contact Details** screen. The selected avatar will be assigned to the contact and displayed next to the contact name, as shown below.

![Contact with Avatar](image)
Change contact color

1. Select a color from the list.

![Select a Color]

2. Tap the Save button on the Contact Details screen. The selected color will be assigned to the contact, as shown below:

![Color Assigned to Contact]

Make contact a favorite or remove as a favorite

You can add contacts to the favorites list for the contacts that you created and contacts that are administrator-managed. Contacts can be added using the Contact Details screen. You can make the contact a favorite or remove from the favorites list.

Favorites can also be added using the Favorites tab. See the "Favorites" section for more details.
Delete a Contact

You can only delete contacts that you create yourself. An administrator-managed contact cannot be deleted.

1. From the Contacts tab, touch and hold the contact you want to delete. A context menu displays.

   ![Contact Options]

   Contact Options

2. Tap the Delete Contact option.

3. You will be asked to confirm removing the contact. To delete, tap Yes. To cancel without deleting the contact, tap No. The contact is removed from the contacts list.

   Note: If you are removing a contact which is also a favorite, you will see the following confirmation message.

   ![Deleting Selected Favorite Contact Confirmation]

   Deleting Selected Favorite Contact Confirmation

4. Tap Yes to delete the contact. The contact will be deleted from the contact list.
12. Group Connect

This section describes the SDC Plus (Sprint Direct Connect Plus) Group Connect calling using Sprint Direct Connect Plus and is organized as follows:

- Group Icons
- Search Groups
- View Groups
- View Group Details
  - Broadcast details (broadcasters only)
- Add a Group
- Edit Group Details
  - Edit a group name
  - Add one or more members to a group
  - Remove a member from a group
  - Rename a group member
  - Add or change a group avatar
  - Change group color
  - Make group a favorite or remove as a favorite
- Delete a Group

The Sprint Direct Connect Plus groups are separate from the contact list on the phone. There are two types of groups: those that are managed by an administrator and those that are managed by the user on the phone.

**Administrator-Managed Groups**

Group Connect groups are managed by an administrator. Administrator-managed groups cannot be deleted or changed from within Sprint Direct Connect Plus.

**Personal Groups**

Personal groups are created from the Sprint Direct Connect Plus contact list. Personal groups are managed by you within Sprint Direct Connect Plus. You may not have the ability to create Personal groups if the corporate administrator has restricted this feature.

**Maximum Number of Allowed Groups**

The following table lists the maximum number of groups allowed on your phone:

<table>
<thead>
<tr>
<th></th>
<th>Administrator-Managed</th>
<th>Personal</th>
</tr>
</thead>
<tbody>
<tr>
<td>Groups</td>
<td>100</td>
<td>30</td>
</tr>
<tr>
<td>Members per group</td>
<td>250</td>
<td>30</td>
</tr>
</tbody>
</table>

**Maximum Groups**
Group Icons

For more information on the Group icons, see "Group Icons" section.

Search Groups

You can use the search box to search for groups. To search groups, see "Searching" section for more information.

View Groups

The Groups tab shows a list of all your personal groups and groups added by an administrator. Icons are shown next to the groups which are a broadcaster, supervisor, and Talkgroup scan priority.

![Groups](image-url)
View Group Details

1. Select a group from the group list and tap and hold.

   | Show details |
   | Delete Group |

   Group Options

2. Tap the **Show details** option in the menu. The group details screen will be displayed, as shown below.
Broadcast details (broadcasters only)

Broadcast calls are managed by the corporate administrator and can have a large number of members. Broadcast call members cannot be viewed but a count of Group members is provided while viewing group details:

Add a Group Connect group

You can create your own personal Group Connect groups unless restricted by an administrator.

1. From the Groups tab, tap the Add button located at the bottom of the screen to manually add the group details. The New Group screen displays.
2. Tap the Name text box to enter a group name using the on-screen keyboard.

3. Tap on Add Members. The Select Contacts displays.

4. Select members from the Select Contacts screen and tap the Save button located at the top of the screen.

**Tip:** You can only add contacts already in your contacts list as group members. If you do not find the name of the group member you want to add, you may need to create a contact first. See "Add a Contact" section for more information on adding contacts.
5. The group can also be assigned with an avatar, a unique color and add as a favorite.

**Tip:** You can also add a group as a favorite from the Favorites tab. For more information on Favorites, see the "Favorites" section.

6. Tap the **Save** button when finished to save the new group. The group will appear in the group list.

### Edit Group Details

You can only edit groups that you create yourself. An administrator-managed group name cannot be edited. However, you can add or change an avatar, add or change a color, and add a group to favorites.

To view the Group Details, see "[View Group Details](#)" section.

1. From the *Group Details* screen, you perform any of the following tasks listed within this section as follows:
   - "Edit a group name"
   - "Add one or more members to a group"
   - "Remove a member from a group"
   - "Rename a group member"
   - "Add or change a group avatar"
   - "Change group color"
   - "Make group a favorite or remove as a favorite"
Edit a Group Connect name

You can edit your own groups but not administrator-managed groups.

1. Tap on the **Group name** field.

   **Tip:** A group name with an underline indicates that the field can be edited. Administrator-managed groups cannot be edited.

2. Type the group name using the on-screen keyboard.

3. Tap the **Save** button, otherwise continue.
Add one or more members to a group

You can add one or more members to your groups but not to administrator-managed groups.

1. Tap on **Add Members** button to add contacts to the group. The **Select Contacts** displays.

2. Select one or more contacts to add to the group.

3. Tap the **Save** button located on the top of the screen.

4. If finished, tap the **Save** button on the **Group Details screen** and a ‘**Group updated**’ message will be displayed, otherwise continue.
Remove a member from a group

You can only remove a member from a group that you created. Groups that are administrator assigned cannot be edited.

1. Touch and hold the member to remove. A context menu displays.

   **Tip:** A group name with an underline indicates a personal group and therefore can be edited. Administrator-managed groups cannot be edited.

2. Tap **Remove member** option. A confirmation dialog is displayed.

3. Select **Yes** if you want to remove the member, otherwise tap **No**.

4. Repeat Step 1 through Step 3 for other group members you want to remove. After removing the group member(s), tap the Back button located on the top of the screen or phone Back button to return to the Group Details screen.
**Note:** When you remove the last member of a group, the group is deleted upon saving the changes. A confirmation dialog will be shown when you remove the last member to let you know this will happen.

5. If finished, tap the **Save** button located on the top of the screen and a ‘Group updated’ message will be displayed, otherwise continue.

### Rename a group member

Group member names are set when the group is created. Changing a contact name in Sprint Direct Connect Plus Contacts list will not change the name of a group member. Follow the instructions in this section to rename a group member.

1. Touch and hold the member to rename. A context menu displays.

**Tip:** A group name with an underline indicates a personal group and therefore can be edited. Administrator-managed groups cannot be edited.

2. Tap **Rename member** option. A confirmation dialog is displayed.

3. Edit the name and tap **Save** button.

4. Tap the **Back** button located on the top of the screen to return to the **Group Details** screen.

5. If finished, tap the **Save** button on the top of the screen to save and a ‘Group updated’ message will be displayed, otherwise continue.
Add or change a group avatar

You can edit the group avatar for the groups that you created yourself and groups that are administrator-managed.

1. Tap the avatar option. The Select Avatar screen displays. For list of all avatars available and their definitions, see "Avatar Icons" section.

2. Select an avatar from the list. You can also take a photo or select an image from your phone’s gallery using the buttons at the bottom of the screen.

   **Note:** The first time you try to take a photo, you may be asked to allow the application permission to access the gallery.

3. If finished, tap the Save button on the Group Details screen and the selected avatar will be assigned to the group, otherwise continue.
**Change group color**

You can edit the group colors for the groups that you created yourself and groups that are administrator-managed.

1. Select a color from the list.

   ![Select a Color](image1)

   **Select a Color**

2. Tap the **Save** button on the *Group Details* screen, otherwise, continue. The selected color will be assigned to the group, as shown below:

   ![Group with Color](image2)

   **Group with Color**
**Make group a favorite or remove as a favorite**

You can add groups to the favorites list for the groups that you created yourself and groups that are administrator-managed. Groups can be added using the *Group Details* screen.

Favorites can also be added using the Favorites tab. See the "Favorites" section for more details.

**Delete a Group**

You can only delete personal groups you have created. Administrator-managed groups cannot be removed.

1. From the *Groups* tab, touch and hold the group you want to delete. A context menu displays.

2. Tap the *Delete Group* option.

3. You will be asked to confirm removing the group. To delete, tap *Yes*. To cancel without deleting the group, tap *No*. The group is removed from the group list.

**Note:** If you are removing a group which is also a favorite, you will see the following confirmation message.

4. Tap *Yes* to delete the group. The group will be deleted from the group list.
13. Talkgroup Scanning

This section describes Talkgroup Scanning using the SDC Plus (Sprint Direct Connect Plus) application and is organized as follows:

- Turn Scanning ON or OFF
- Add a Group to a Scan List
- Remove a Group from a Scan List or Change the Scanning Priority

Talkgroup Scanning allows a subscriber’s phone to scan through a list of corporate groups for calls and up to three groups can be assigned as priority (1–3) groups. The higher priority group connect calls take precedence over lower priority group connect calls. Groups that are not in the scan lists do not barge in when Scanning is ON.

While you have Talkgroup Scanning turned on, you will see the following behavior:

- Calls from the **scanned group** are **received normally**. When the current scanned group connect call ends, you will automatically hear the next active scanned group connect call in progress. **You will not get missed call alerts for group connect calls while scanning is turned on.**

- **Quick Group Connect Calls** are **received normally**. A missed call alert is provided if you are busy on another SDC Plus call or a cellular call.

- **One-to-one calls** are **received normally**. A missed call alert is provided if you are busy on another SDC Plus call or a cellular call.

- **All call types can be originated**: Direct Connect, Quick Group, and Group Connect calls.

- **Normal call rejoin will occur** for originated group connect calls. Note: you will not receive Missed Call Alerts for group connect calls while scanning, so calling a group may result in a call rejoin.
Turn Scanning ON or OFF

To turn on Talkgroup Scan, tap the **Talkgroup Scan** toggle on the menu from the OFF state to the ON state.

Talkgroup Scan is OFF

To turn off Talkgroup Scan, tap the **Talkgroup Scan** toggle on the menu from the ON state to the OFF state.

Talkgroup Scan is ON

When Talkgroup Scan is turned ON, a scan list icon will be shown on the group tab row and during a call, the title bar will show the priority of the Talkgroup. In addition, if any Group Connects have priorities that you have assigned, the priority (1-3) will be displayed on the Group Connect button. When Talkgroup Scan is turned off, the scan list icon will disappear from the call status on the main screen and all assigned priorities will disappear.

The Group Connect list will show in priority order at the top followed by the rest of the Group Connect groups in alphabetical order as shown below.
**Add a Group to a Scan List**

1. Touch and hold on the Group Connect that you want to add to the scan list. A context menu is shown.

2. Tap the **Scan List** option.

---

**Note:** Only Corporate groups given by your corporate administrator can be scanned.
Scan List Priority Options

3. Tap the priority option you want to assign to the group or select No Priority if you want the group to be of normal priority (in other words not a priority scan Group Connect). If you choose a priority that is already being used by another group, a message appears as shown below.

Scan List Information Message

4. Select Yes to assign the existing priority to the current group or select No to assign the group a new priority. Once you assign a priority to a group, a priority icon will appear next to the scanned group as shown below.

**Note:** Choosing a priority used by another group will make the previous priority group stay in the scan list with normal priority.
Remove a Group from a Scan List or Change the Scanning Priority

1. From the Groups tab, touch and hold on the Group Connect that you want to remove or change the scanning priority.

2. Tap the Scan List option. A pop-up menu appears as shown below.
3. You can reassign the priority by touching a priority option. To make the group normal priority, tap **No Priority**. To remove the group from the scan list, tap **Remove**. If you choose a priority that is already being used by another group, a message appears as shown below.

4. Select **Yes** to assign the existing priority to the current group or select **No** to assign the group a new priority. The previously Priority 1 assigned group will now be moved to No priority group.

**Note:** Choosing a priority used by another group will make the previous priority group stay in the scan list with normal priority.
14. Airplane Mode

Your phone provides a special mode called “Airplane Mode” which disables your phone’s ability to communicate over cellular, Wi-Fi and Bluetooth connections. When you turn on airplane mode, you are disconnected from the SDC Plus (Sprint Direct Connect Plus) service.

- You cannot receive SDC Plus calls or messages
- You cannot receive alerts from others
- Others will see you as offline in their Sprint Direct Connect Plus contact list and will not be able to call you or send you an alert

15. Using Accessories and Bluetooth

This section describes using accessories and Bluetooth associated with the SDC Plus (Sprint Direct Connect Plus) application and is organized as follows:

- Using a Wired Audio Headset
- Using Bluetooth
  - Car Kit
  - External PTT Button
  - How to Turn Off Bluetooth for Sprint Direct Connect Plus
- Using a Remote Speaker Microphone
  - Wired
  - Bluetooth

Using a Wired Audio Headset

You can use a headset plugged into your phone for SDC Plus calls. Whenever you connect the headset, SDC Plus calls are automatically heard over the headset instead of the loudspeaker. You must still use the PTT button on the phone to take the floor to speak, even if your headset has a multimedia control button on it. When you disconnect the headset, the loudspeaker will again be used for SDC Plus calls.

Using Bluetooth

By default, whenever your phone is connected to a compatible Bluetooth device, Sprint Direct Connect Plus uses that Bluetooth device for calls. If you turn off or unpair your Bluetooth device, SDC Plus call will automatically switch to the loudspeaker. Sprint Direct Connect Plus supports the following Bluetooth profiles: Hands-Free (HFP), Headset (HSP), or Advanced Audio Distribution Profile (A2DP). When using Sprint Direct Connect Plus over Bluetooth, you must use the PTT button on the phone to take the floor and speak.

Car Kit

Many cars allow you to connect your phone to the car audio system using Bluetooth. Check the owner’s manual for your car to see if your phone is compatible with your car. Once you connect your
phone to the car’s audio system, SDC Plus calls will also use the Bluetooth audio. You must use the PTT button on the phone to take the floor.

**External PTT Button**

You can use a compatible Bluetooth Smart (Low Energy Bluetooth) PTT button with your Sprint Direct Connect Plus service. This button can be used in addition to the on-screen PTT button.

**How to Turn Off Bluetooth for Sprint Direct Connect Plus**

If your phone can connect to your car audio system and you receive regular cellular calls, SDC Plus calls will also work. In the rare circumstance that there is a compatibility problem using Sprint Direct Connect Plus with your car audio but you still want to use Bluetooth for regular cellular calls, you can turn off Sprint Direct Connect Plus over Bluetooth from within Sprint Direct Connect Plus settings. For details on how to turn off Bluetooth, refer to the "Use Bluetooth" section.

**Using a Remote Speaker Microphone**

A Remote Speaker Microphone (RSM) is an accessory made especially for handling SDC Plus calls. The RSM has a loudspeaker and PTT button built in which lets you remotely control your phone’s Sprint Direct Connect Plus app. There are two types of RSMs: those that connect by wire to the phone’s headset connector, and those that use Bluetooth.

**Wired**

A wired RSM connects to the phone’s headset connector, just like a headset. The RSM will have a loudspeaker and microphone, along with a PTT button. The PTT button allows you to take the floor during a SDC Plus call and speak. The PTT button on the RSM works just like the PTT button on the phone. Depending on the RSM, there may also be a connection for you to use a headset with the RSM. Check the RSM owner’s manual for information specific to the accessory. With a wired RSM, you control the loudspeaker volume using the volume keys on the phone and using the volume buttons on the RSM.

---

**Note:** Sprint Direct Connect Plus must be in the foreground to take the floor using the wired accessory.

**Bluetooth**

A Bluetooth-connected RSM gives you all the features of a wired RSM without being tethered by a cord. In addition to having a loudspeaker and PTT button, a Bluetooth RSM also has its own volume control. You do not use the volume buttons on your phone to control the volume, but rather the volume control on the RSM itself. A Bluetooth RSM must be “paired” to your phone before it can be used. For instructions on how to pair the RSM with your phone, please refer to the documentation that comes with the RSM.
16. Settings

This section describes the settings within the SDC Plus (Sprint Direct Connect Plus) application and is organized as follows:

- Important Message
- Advanced
- Alert Repeat
- Alert Tone
- Auto Start
- Background Mode
- Call From Lock Screen
- Call Priority
- Call Reconnect Tone
- Capacity
- Contact Sorting
- Display Name
- Call Alert
- Logout
- Missed Call Alert
- My SDC Plus Number
- One Touch Action
- Privacy Mode
- PTT Key
- Restore Defaults
- Use Bluetooth
- Vibrate Alert
- Vibrate Call
To change the settings

All settings except for the **Boundary** settings can be changed in Sprint Direct Connect Plus settings:

1. From within the **Menu**, tap the **Settings** option. The menu icon is in the upper-left hand corner of the main screen.

**Note:** For more information on how to change the **Boundary** settings, see “**Boundary settings**” section.

---

Menu Options

2. Find the settings you want to change and follow the instructions.

**Note:** All settings are shown in the default state.

---

**Important Message**

Notifications are sent periodically to ensure that the application is up to date with the most current software. When an update is available, you receive a message when you login to Sprint Direct Connect Plus. Important Message notifications are also shown with a yellow star on the **Menu Settings** option, and the Important Message settings. If there are no important message notifications are available, you will not receive a message nor see the setting. See the “**Application updates**” section for more information.

**To update Sprint Direct Connect Plus**

1. From the **Settings** screen, scroll to and tap the **Important Message** setting.
2. From the Important Message notification, tap the **Upgrade** button to be directed to the Google Play Store to download the latest application or tap the **Dismiss** button to dismiss the notification.

---

**Note:** Important Message notifications may vary in content.

---

**Important Message Notification Example**

**Advanced**

The Advanced settings provide additional settings which include Audio Profile and Accessory Compatibility.

---

**Note:** These settings are preset and not available on Sprint Direct Connect Plus certified phones.

**To access the advanced settings**

1. From the **Settings** screen, scroll to and tap the **Advanced** settings.
Audio Profile

The Audio Profile setting allows you to select from several audio profiles for microphone and audio path.

To change the Audio Profile setting

1. From the Advanced settings screen, scroll to and tap the Audio Profile setting.

2. From the Audio Profile screen, tap the desired profile.
Accessory Compatibility

You can set the compatibility mode for Sprint Direct Connect Plus wired accessories.

**Note:** This setting should only be changed if the PTT button on a wired PTT accessory does not take and release the floor properly.

To change the Accessory Compatibility

1. From the Advanced settings screen, scroll to and tap the **Accessory Compatibility** setting.

2. Tap the desired mode option.
**Alert Repeat**

The alert repeat setting affects how often you are reminded that you have Call Alerts and Missed Call Alerts waiting. The options have the following behavior:

- **Once:** The alert will be played once when the alert is received.
- **Repeat:** The alert will be played every 20 seconds for 10 minutes.
- **Continuous:** The alert will be played every 20 seconds until you clear the alert. This option will drain the battery faster than the other options.

**To change the alert repeat setting**

1. From the Settings screen, scroll to and tap on the **Alert Repeat** setting.

2. Select how often you want your alerts to repeat.

**Alert Tone**

This setting allows you to select the missed call alert and Call Alert tone from a list of choices. The tone is played when you select it.

**To change the alert tone setting**

1. From the Settings screen, scroll to and tap the **Alert Tone** setting.

2. Select the desired alert tone.

*Tip:* When you preview an alert tone, it will play on the speaker even if the phone ringer is silent.
Auto Start

When the phone is powered up and the Auto Start setting is set to ON, the Sprint Direct Connect Plus will start in the background. If you have previously logged out manually, the Sprint Direct Connect Plus will not start and you have to launch the Sprint Direct Connect Plus manually.

When the phone is powered up and the Auto Start setting is set to OFF, the Sprint Direct Connect Plus will not start in the background. You have to launch the Sprint Direct Connect Plus manually.

To change auto start
1. From the Settings screen, scroll to the Auto Start setting.
2. Tap the On/Off switch to toggle the state of the setting.

Background Mode

The Background Mode setting allows you to choose whether Sprint Direct Connect Plus comes to the foreground or remains in the background when you receive a SDC Plus call. You must bring Sprint Direct Connect Plus to the foreground to use the on-screen PTT button. See the "SDC Plus Call Behavior While the Application is in the Background" section for more information.

To change the background mode setting
1. From the Settings screen, scroll to the Background Mode setting.
2. Tap the On/Off button to toggle the state of the setting.
**Call From Lock Screen**

The *Call From Lock Screen* setting allows you to make a SDC Plus call while the phone screen is locked. See the "One Touch Action" setting for more information on how to configure the contact or group to call.

**Note:** This setting is available on devices that support One Touch calling feature.

**To change the call from lock screen**

1. From the *Settings* screen, scroll to the *Call From Lock Screen* setting.
   
   ![Call From Lock Screen Setting](image)

2. Tap the *On/Off* switch to toggle the state of the setting.

**Call Priority**

With Call Priority you can allow or reject another incoming call based on the Call Priority setting (Ongoing or Cellular). Default is Ongoing.

**To change call priority**

1. From the *Settings* screen, scroll to and tap the *Call Priority* setting.
   
   ![Call Priority Setting](image)

2. From the *Call Priority* screen, tap either *Ongoing* (Default) or *Cellular*.

   ![Call Priority Setting Options](image)

**Ongoing**

An ongoing cellular call continues and an incoming SDC Plus call is rejected with user busy indication. A Sprint Direct Connect Plus missed call alert is provided to the user when the SDC Plus call is rejected.
An ongoing SDC Plus call continues and an incoming cellular call is rejected.

**Cellular**

An incoming SDC Plus call is rejected during a cellular call.
An ongoing SDC Plus call will end if a cellular call is answered.

**Call Reconnect Tone**

The Call Reconnect Tone setting determines whether the phone will play the call reconnect tone when turned ON or turned OFF during a call. The call reconnect tone is played when you lost connection with the network during a SDC Plus call.

**To change the Call Reconnect Tone**

1. From the **Settings** screen, scroll to the **Call Reconnect Tone** setting.

   ![Call Reconnect Tone Setting]

2. Tap the **On/Off** switch to toggle the state of the setting.

**Capacity**

The Capacity setting allows you to view how many Sprint Direct Connect Plus contacts, groups, and favorites are stored on your phone. These numbers include both personal and administrator-managed. Please refer to the table in the “Contacts” section, “Group Connects” section, and “Favorites” section to see the maximum capacity for your phone. Dismiss the pop-up displayed by pressing the back button on the title bar.

**To view the phone capacity**

1. From the **Settings** screen, scroll to and tap the **Capacity** setting.

   ![Capacity Setting]

2. Tap the **Capacity** setting. The Capacity screen displays.

**Contact Sorting**

You can choose to view your contacts in a sorted manner. There are two options, sorting according to the alphabetical order of your contacts or sorting according to the availability of your contacts. When contacts are sorted by availability, online contacts are shown first alphabetical, followed by offline contacts alphabetical. Online contacts include contacts who are ‘Available’ and ‘Do Not
Disturb’. The contact list will update each time a contact changes from online to offline or vice versa.

To change the contact sorting

1. From the Settings screen, scroll to and tap the Contacts Sorting setting.

   Contact Sorting
   Set contact sorting to alphabetical or by availability.

   Contact Sorting Setting

2. From the Contacts Sorting screen, tap either By Alphabetical or By Availability.

   Contact Sorting Setting Options

Display Name

The display name setting allows you to view and change the name that others, including the corporate administrator, see in their contact list. The administrator may change your name at any time. The administrator may also restrict the ability for you to set your name. The display name can be changed if it has an underline.

To view or set your display name

1. From the Settings screen, scroll to and tap the Display Name setting.

   Display Name
   This is the name others will see when you communicate with them.

   Display Name Setting

2. Your current name will be displayed. Tap the Cancel button to dismiss the display name window or continue to set your display name.
3. Tap the Clear Text button to clear the display name.
4. Type your display name using the on-screen keyboard.
5. Tap the Save button to save the display name.

**Call Alert**

This setting allows you to select the Call Alert from a list of choices to provide either a Tone and Display (default), Tone Only, Display Only, or Off which provides no alert dialog and no alert tone.

**To change the Call Alert**

1. From the Settings screen, scroll to and tap the Call Alert setting.

   ![Call Alert Setting](image)

2. Select the desired Call Alert option as follows:

   **Tone and Display (default)**

   Persistent alert dialog is displayed and an audible tone is played (subject to Silent Mode behavior). Alert is added to history.

   **Tone Only**

   Audible alert tone is played (subject to Silent Mode behavior). Alert is added to history.

   **Display Only**

   Persistent alert dialog is displayed but no alert tone is played. Alert is added to history.
Off

No alert dialog is displayed and no alert tone is played. Alert is silently added to history.

3. Click OK.

Logout

While you are logged out, you will be shown as “Offline” to others and you cannot receive SDC Plus calls, alerts, or secure messages. If you log out before powering off your phone, you will remain logged out after your phone is powered on again even if the Auto Start setting is turned on. To send or receive SDC Plus calls, you will need to log in. See the “Login” section for details on how to log in.

To log out

1. From the Settings screen, scroll to and tap the Logout setting.

2. Tap Logout, a Logout confirmation box will appear.

3. Tap Yes to turn on or No turn off.
**Missed Call Alert**

This setting allows you to select the Missed Call Alert (MCA) from a list of choices to provide either a Tone and Display (default), Tone Only, Display Only, or Off which provides no alert dialog and no alert tone.

**To change the missed call alert**

1. From the Settings screen, scroll to and tap the Missed Call Alert setting.

2. Select the desired Call Alert option as follows:

   **Tone and Display (default)**
   Persistent alert dialog is displayed and an audible tone is played (subject to Silent Mode behavior). Alert is added to history.

   **Tone Only**
   Audible alert tone is played (subject to Silent Mode behavior). Alert is added to history.

   **Display Only**
   Persistent alert dialog is displayed but no alert tone is played. Alert is added to history.

   **Off**
   No alert dialog is displayed and no alert tone is played. Alert is silently added to history.

3. Click OK.
My SDC Plus Number

The Sprint Direct Connect Plus number displays your registered Sprint Direct Connect Plus number.

To view your Sprint Direct Connect Plus number

1. From the Settings screen, scroll to and tap the My SDC Plus Number setting.

My SDC Plus Number:
646-246-9898

My SDC Plus Number Setting
One Touch Action

When One Touch Action is turned on, Sprint Direct Connect Plus users can call a particular contact or Group Connect or most recent history entry when the PTT button is pressed once, or assign the PTT button to open the application to the preferred landing page (History, Contacts, Groups, Favorite Contacts, Favorite Groups). One Touch Action provides a simplified calling experience for Sprint Direct Connect Plus users who primarily communicate with a single contact or Group Connect.

**Note:** One Touch calling to contacts and groups is available on devices that support One Touch Calling. If your device does not support One Touch Calling, you can still set the Landing Page.

**To change one touch action**

1. From the *Settings* screen, scroll to and tap the *One Touch Action* setting.

2. From the *One Touch Action Setting Options*, select the desired One Touch Action.

**One Touch Action Setting Options**
Call Most Recent

Originate a SDC Plus call to the most recent history event.

Call Contact

Originate a SDC Plus call to a user-selected Sprint Direct Connect Plus contact.

Call Group

Originate a SDC Plus call to a user-selected Sprint Direct Connect Plus Group Connect (corporate or public).

Landing Page

Bring application to the foreground and go to the user-selected landing page:

1. History
2. Favorite Contacts
3. Favorite Groups
4. Contacts (default)
5. Groups
6. Map

None

None - turn off Direct Connect Button action when Sprint Direct Connect Plus is in the background.

Privacy Mode

The Privacy Mode setting lets you control how incoming SDC Plus calls are handled whenever your phone ringer setting is set to “silent” or “vibrate-only”. With Privacy Mode, you can control whether an incoming SDC Plus call is heard normally or if the SDC Plus call uses the phone earpiece. You can choose the behavior using the Privacy Mode setting within the Sprint Direct Connect Plus. Based on the option you choose; the following SDC Plus call behavior will occur:

Privacy Mode Setting

Earpiece

Incoming SDC Plus calls will be sent to the phone’s earpiece instead of the loudspeaker. You can carry on your SDC Plus call by holding the phone up to your ear, just as a normal phone call. You must still use the PTT button to take and release the floor.
Privacy Mode Setting Options

Off
Incoming SDC Plus calls will barge on the phone’s loudspeaker or earpiece, depending on the Speaker setting, even if the phone’s ringer setting is set to “silent” or “vibrate-only”. This option allows you to hear SDC Plus calls even if your phone’s ringer is silent.

PTT Key
The Direct Connect Button setting allows you to assign an alternate key to be used as a PTT Button (this is useful if your phone does not have a hard key to use as a PTT button).

To change the Direct Connect Button
1. From the Settings screen, scroll to and tap the PTT Key setting.

2. From the PTT Key Setting Options, tap either Volume Up/Down, Camera, or None (on-screen) default.

Note: If your phone does not have a camera button, the Camera option will not be shown.
When the PTT Key setting is set to Volume Up/Down, you can use either the volume up or down button to activate the PTT Button. The SDC Plus call volume can be changed by pressing the Speaker button on the call screen and using the slider to adjust the volume.

**Restore Defaults**

You can restore all the Sprint Direct Connect Plus settings to their defaults using the **Restore Defaults** setting. When you choose this setting, you will be reminded that the restore cannot be undone and asked to confirm the action.

**To restore the defaults settings**

1. From the **Settings** screen, scroll to and tap the **Restore Defaults** setting.
2. Tap **Yes** to restore all application settings to their default values or **No** to cancel.
Use Bluetooth
To turn on/turn off Bluetooth device usage for SDC Plus call, switch ON the setting to turn on Bluetooth or switch to OFF mode to switch off the Bluetooth at the Bluetooth setting.

To change the Bluetooth behavior
1. From the Settings screen, scroll to the Bluetooth setting.
2. Tap the On/Off switch to toggle the state of the setting.

Vibrate Alert
When the Vibrate Alert setting is ON, the phone will vibrate for new alerts. This setting applies to Call Alerts and Missed Call Alerts.

To change the vibrate alert
1. From the Settings screen, scroll to the Vibrate Alert setting.
2. Tap the On/Off switch to toggle the state of the setting.

Vibrate Call
When the incoming Call Vibrate setting is ON, the phone will vibrate for incoming SDC Plus Call.

Note: When the phone ringer is set to Silent only it will override this setting unless Privacy Mode is OFF.
To change vibrate call

1. From the Settings screen, scroll to the Vibrate Call setting.

2. Tap the On/Off switch to toggle the state of the setting.
17. Troubleshooting

This section describes the steps you must take to troubleshoot the SDC Plus (Sprint Direct Connect Plus) application and is organized as follows:

- General
- Activation Failures
- Application Becomes Unresponsive
- Application is Asking Me to Enter an Activation Code
- Call Failures
- Call Unexpectedly Ends
- Incoming Call is Rejected
- Calls are Always Heard in the Earpiece
- Calls are Only Received from a Small Number of Groups
- Cannot Change the Phone Number of a Sprint Direct Connect Plus Contact
- Cannot Create/Update/Delete a Contact or Group
- Cannot Hear Incoming Call
- Cannot Send an Call Alert
- Changing My SIM Card
- Explanation of Error Messages
  - Loss of Data Network Connection
  - User Busy
  - User Unreachable
- Login failures
- Presence Status Does Not Update
- PTT Button Is Not Working or Accesses a Different Application
- Quick Group Connect Calls I Receive Are Shown in History as a One-to-One Call
- Wi-Fi Connection Problems

General

Whenever you are having issues, it is recommended to update your Sprint Direct Connect Plus.

Activation Failures

The first time you start the application after download, the application must “activate” with the SDC Plus server. This activation process ensures that you are a Sprint Direct Connect Plus subscriber and that you are using a supported Android phone. If a problem occurs during the activation process, you will receive an error message. The following error messages may be observed:
1. **“Data connection is unable”**

   Ensure that your phone is not in Airplane Mode and you are connected to the cellular data network. See the owner’s manual for your phone to understand the icons shown in the status bar at the top of the screen that indicates data connection is available.

2. **“This service requires a supported phone. Would you like to subscribe now?”**

   You must have a Sprint Direct Connect Plus subscription before you can successfully begin using Sprint Direct Connect Plus service.

### Application Becomes Unresponsive

In rare cases, the Sprint Direct Connect Plus may suddenly stop working (application freeze). If this happens, you can recover by following these instructions:

1. Go to phone settings on your Android phone.
2. Tap on **Application manager** under Device.
3. Choose **Push-to-Talk** from the list.
4. Select only **Force stop** option and not any other option.

**WARNING:** Selecting the Uninstall option will uninstall the complete Sprint Direct Connect Plus from your phone. If this happens, see the sections "Download" for how to reinstall the application and reactivate with the server.

**WARNING:** Selecting Clear data will clear your history, favorites list, and settings within the Sprint Direct Connect Plus. You will also have to reactivate the Sprint Direct Connect Plus using the instructions in the section "First-time Activation". Your contacts and Group Connects will automatically be restored during activation, but your avatars and colors customizations will not be restored.

### Application is Asking Me to Enter an Activation Code

When you start the application for the first time, you are asked to activate the application. This activation process ensures that you are a Sprint Direct Connect Plus subscriber and that you are using a supported Android phone. During activation, you must be located in an area with good cellular coverage. Some corporations allow activation of the application over a Wi-Fi network using an activation code. The activation code is typically provided by a corporate administrator. If you do not have an activation code, please move to an area with good cellular coverage and try activating again.

### Application is not Visible during an Incoming Call

Check the Background Mode setting to ensure it is not turned on. For more details, see the "Background Mode" section.

### Call Failures

A SDC Plus call may not be completed for several reasons:
• The person you are calling has an “Offline” or “Do Not Disturb” status. The Sprint Direct Connect Plus will not allow you to make a call to someone with either status.

• The person you are calling is busy, either on another SDC Plus call or a cellular call. Please see the “User Busy” section for more information.

• Your phone loses connection with the data network or SDC Plus server. Please see the “Loss of Data Network Connection” section for more information.

• The person you are trying to call has temporarily not reachable. Please see the “User Unreachable” section for more information.

Call Unexpectedly Ends

A cellular or SDC Plus call may unexpectedly end because of the option selected in the Call Priority setting:

• During a SDC Plus call, an ongoing SDC Plus call ends when a cellular call is answered.

• During a cellular call, an incoming SDC Plus call causes the cellular call to end and the SDC Plus call to be received.

Please see the “Call Priority” setting in the Settings section for more information.

Incoming Call is Rejected

An incoming cellular or SDC Plus call may be rejected because of the option selected in the Call Priority setting.

Please see the “Call Priority” setting in the Settings section for more information.

Calls are Always Heard in the Earpiece

If you are hearing SDC Plus call through the earpiece instead of the loudspeaker, the speakerphone ON/ OFF setting may be set to OFF. You can change this setting in the application settings, or during a call. To turn on the speakerphone, tap the on-screen speakerphone button to ensure it is ON (shown by the green indicator on the button). More details are found in “Call Screen Icons”. Another reason may be because your phone ringer may be set to silent. Ensure that your phone is not in Silent and check that Privacy Mode is not set to Earpiece. See the “Interaction with Silent or Sound Mode” section for more information about interaction with your phone’s silent mode.

Calls are Only Received from a Small Number of Groups

If you are receiving calls from only a couple of groups, you may have turned the ‘Talkgroup Scanning’ on and are listening to only the groups in the scan list. More details can be found in “Group Connect Scanning”.

Cannot Change the Phone Number of a Sprint Direct Connect Plus Contact

While the name, avatar, color, and favorite status of a contact can be changed, phone numbers
cannot be changed. If you need to change a contact’s phone number, you will need to delete the contact and add it again with the new phone number. Please see the "Contacts" section for details on deleting and adding Sprint Direct Connect Plus contacts. Contacts that are managed by an administrator cannot be renamed or deleted.

**Cannot Create/Update/Delete a Contact or Group**

There are two reasons why you might not be able to create, modify, or delete a contact or group:

**Administrator-Managed Contacts and Groups**

You cannot change or delete contacts or groups that are managed by an administrator. Please refer to the "Contacts" section and the "Group Connects" section for more details on administrator-managed contacts and groups. You will need to contact your Sprint Direct Connect Plus administrator to make any changes.

**Corporate-Only Subscriber**

Your Sprint Direct Connect Plus administrator may have your Sprint Direct Connect Plus service restricted to have only corporate contacts and groups. This means that only your Sprint Direct Connect Plus administrator can add, change, or remove contacts and groups on your phone. Even though you cannot change or remove contacts or groups, you can still make them favorites, add avatars, or set colors.

**Cannot Hear Incoming Call**

If you cannot hear an incoming SDC Plus call, your loudspeaker volume may be turned down or your phone may be in silent mode. Please see the "Turning the Speaker On/Off and Set SDC Plus call Volume" section to set the SDC Plus call volume. See the "Interaction with Silent or Sound Mode" section for more information about interaction with your phone’s silent mode.

**Cannot Send a Call Alert**

If your phone is currently in “Do Not Disturb” (DND) status, you will not be able to send an Call Alert. You are not able to receive a callback while in DND, so the Sprint Direct Connect Plus will not allow you to send an alert. Please change your presence status to “Available”. See the "My Presence" section for details on how to set your presence status.

**Changing My SIM Card**

Your phone may contain a SIM card that lets you move your phone number from one phone to another phone compatible with your mobile phone service and SIM card. If you replace the SIM card in your phone with another that has a different phone number, the Sprint Direct Connect Plus will automatically erase your Sprint Direct Connect Plus history and favorites and will restore the contacts and groups associated with the new number (if any exist). After changing the SIM card, the next time you start the Sprint Direct Connect Plus, it will ask you to “activate” or re-register your phone with the SDC Plus server to ensure that you subscribe to Sprint Direct Connect Plus service. Please see the "First-time Activation" section for information about registering your phone with the Sprint Direct Connect Plus service.
Explanation of Error Messages

Loss of Data Network Connection

If the Sprint Direct Connect Plus cannot communicate with the SDC Plus server, it will display “Offline” in the Status bar or System Notification and your availability will show “No Connection”. For more information, refer to the “My Presence” section. You will not receive SDC plus call or alerts and you will appear as “Offline” to others after a period of time. You should ensure that you have a good signal on your phone. If you perform any action that requires connection to the SDC Plus server (e.g., outgoing call, change self-availability, contact/group add/modify/delete, etc.) a “Connection is unavailable” message is displayed for a few seconds. When the connection is restored, you will receive the “Connection is restored” message.

To see if you have access to the data network, you should try to access a website using your mobile browser. You may also switch on Wi-Fi if a Wi-Fi network is in range.

If you want to reconnect only to the cellular data network, then turn off Wi-Fi in the settings. See “Menu” settings section for more information.

User Busy

When you make a one-to-one SDC Plus call to another person and they are either engaged in another SDC Plus call or a regular cellular call, you will see a message indicating that the person is busy. If you receive this message, you can try your call later, or send an alert. See the “Sending an Alert” section for details.

User Unreachable

In rare cases, a contact might be shown as “Available” in your contact list, but might be temporarily outside the range of service coverage. In this case, your SDC Plus call will not go through. The called person’s status will be updated to “Offline” until they reconnect to Sprint Direct Connect Plus service. If this happens, you should wait for their status to be shown as “Available” and try your call again.

Login failures

Login to the Sprint Direct Connect Plus service may fail if the phone is in Airplane Mode or if you do not have a data connection. Please check the data connection and try to log in again later.

Presence Status Does Not Update

If you attempt to change your presence status from “Available” to “Do Not Disturb” or vice versa, and you do not see your status updated, there may be a communication problem between your phone and the SDC Plus server. Logging out and logging in again should solve the problem. To log out, see the setting “Logout”.

PTT Button Is Not Working or Accesses a Different Application
If your phone has a PTT button on the side and it is not working for Sprint Direct Connect Plus, it may not be properly configured for use by the Sprint Direct Connect Plus. Please see the "PTT Button Assignment" section for details on how to configure the PTT button.

The following information is applicable to Sprint Direct Connect Plus certified devices.

If you are using Sprint Direct Connect Plus wired accessories and Sprint Direct Connect Plus is not working, verify the Sprint Direct Connect Plus wired accessories are setup properly using the device user guide. Ensure that the Advanced > Accessory Compatibility setting is properly set using each option until the accessory is working properly. For more information, see "Accessory Compatibility" section on how to set the Advanced > Accessory Compatibility setting.

If your phone has Goggle Now or S Voice application running, you must turn off it otherwise it takes precedence over the Sprint Direct Connect Plus and will interfere with the operation.

**Quick Group Connect Calls I Receive AreShown in History as a One-to-One Call**

When you receive a Quick Group Connect call, you will notice that the call history shows a call received from the originator of the call. This is normal. You cannot call Quick Group that was created by someone else. Any Quick Group Connect calls that you make will be shown in the call history with the names of the participants. You can call that group again from your history. For more details on Quick Groups, please refer to the "Quick Group Connect Calls" section.

**Wi-Fi Connection Problems**

Using the Sprint Direct Connect Plus over Wi-Fi requires that the phone can access the Internet through the Wi-Fi connection. While your phone is connected to Wi-Fi if the Sprint Direct Connect Plus gives you the message “Data connection is unable” then make sure that the Wi-Fi service provider does not require a user name and password and that the Wi-Fi application setting is turned on.

In rare circumstances, the Sprint Direct Connect Plus may not be able to connect to the SDC Plus server over Wi-Fi. In this case, you should turn off the Wi-Fi setting in the Sprint Direct Connect Plus or turn off the Wi-Fi connection on your phone to use Sprint Direct Connect Plus.

Please refer to the "Using Sprint Direct Connect Plus over Wi-Fi" section and the application "Settings" setting for more details.
18. Glossary

This section provides a list of terms used with the SDC Plus (Sprint Direct Connect Plus) application and is organized as follows:

• Alerts
  • Call Alert
  • Missed Call Alert (MCA)
• Call Types
  • Quick Group Connect Call
  • Broadcast Group Connect Call
  • Group Connect Call
  • Direct Connect Call
• Display Name
• Floor Control
• Group
• Supervisory Override
• Group Connect Scanning

Alerts

Call Alert

An Call Alert allows you to request a callback from another subscriber. For more details, see the "Call from Call Alert" section.

Missed Call Alert (MCA)

An Missed Call Alert (MCA) will alert you whenever you miss a SDC Plus call. For more details, see the "Missed Call Alert (MCA)" section.

Call Types

Quick Group Connect Call

A quick group connect call allows you to make a SDC Plus call to up to 10 people without first creating a group. This is handy if you want to call a small group of people quickly that are not already in a group. For more details, see the "Quick Group Connect Calls" section.

You can create a group from a quick group connect call in your call history unless your administrator has restricted your phone from adding new groups.

Broadcast Group Connect Call

A high-priority call where only certain group members, called broadcasters may initiate Broadcast Group Connect calls. For more details, see the "Broadcast Group Connect Calls" section.
**Group Connect Call**

A group connect call is a call to a group of people. For more details, see the "Group Connect Calls" section.

**Direct Connect (Private) Call**

A Direct Connect (private) call (also known as a one-to-one call) is a call between you and one other person. For more details, see the "One-to-One (1:1) Calls" section.

**Display Name**

Your display name is shown to others during a SDC Plus call and is shown in their SDC Plus call history. You can change your display name from within the Sprint Direct Connect Plus settings unless restricted by your administrator. For more details, see the "Restore Defaults" section.

**Floor Control**

While in a SDC Plus call, only one person can speak at a time. The person speaking is said to “have the floor”. The following terms are used throughout this guide:

**Floor Acquired:** When you take the floor by pressing the PTT button, the on-screen PTT button changes and you will hear a “chirp.” This indicates that you have the floor and can speak while you press the PTT button. When you stop talking, you should release the PTT button.

**Direct Connect Call in Progress**

**Idle:** While no one is speaking, the floor is “idle” and available for anyone to take. The screen will change color and show the message “No one is speaking…” If you want to speak, you must wait until the floor is idle, then you can press the PTT button to acquire the floor.
Floor Unavailable: Whenever someone else is speaking, you will see the speaker’s name and the on-screen PTT button will change. You cannot take the floor while someone else is speaking, you will get a bong tone or floor deny. If you are speaking and a supervisor takes the floor, you will hear a tone and the on-screen PTT button will change.

Note: If the call is a group connect call and you are a supervisor for the group, whenever you press the PTT button, the floor will be revoked from the person speaking including another supervisor and you will be able to speak after acquiring the floor. For more details, see the "Supervisory Override" section.
**Group**

A group is a type of Sprint Direct Connect Plus contact that connects you to multiple people at once. For more details, see the "Group Connects" section.

**Supervisory Override**

Supervisory override allows a group member to be designated by an administrator as a supervisor and be able to take the floor and speak at any time during a call, even if someone else has the floor. One or more members of a group can be designated as supervisor. If there are two or more supervisors in the same group, each supervisor can interrupt the other(s). For more details, see the "Supervisory Override" section.

**Talkgroup Scanning**

Talkgroup Scanning allows a user’s phone to scan through a list of corporate groups for calls and up to three groups can be assigned as priority (1–3) groups. The higher priority Talkgroup calls take precedence over lower priority group connect calls. Groups that are not in the scan lists do not barge in when Scanning is ON. For more details, see the "Talkgroup Scanning" section.
19. Avatars

This section provides a complete list of all avatars available.

Avatar Icons

The following table lists the avatars that you will see when you assign it to a contact or group.

<table>
